REPORT**

REPORT INFORMATION

Purpose

BIDV's Sustainability Report is designed to provide transparent and detailed information on activities, strategies and achievements that bank has accomplished in sustainable development. This report is not only for evaluating the bank's performance but also showing our commitment to stakeholders in implementing social and environmental responsibilities. This report was approved and issued by the Board of Directors of BIDV, and is published on the Bank's official website.

Basis for report preparation

This Sustainability Report has been prepared in accordance with the following regulations, standards and guidelines:

- Global Reporting Initiative (GRI) Standards 2021 (updated July 2021)
- United Nations Sustainable Development Goals (SDGs)
- Task Force on Climate-related Financial Disclosures (TCFD) Climate-related Financial Disclosures Framework.
- Circular 96/2020/TT-BTC providing guidelines on disclosure of information on securities market issued by the Minister of Finance on November 16, 2020.

Scope of Report

This report presents official information on BIDV's strategies, principles, initiatives, and performance on core aspects of Environment, Society, and Governance (ESG). The report covers related information the financial year from January 1 to December 31, 2024. This report is used in conjunction with the 2024 Annual Report and other sustainability-related information on the Bank's website.

- **Reporting frequency:** Annually.
- **Report data:** The report is prepared within the scope of BIDV's operations, including the Head Office, 189 branches, 895 transaction offices operating in sixty-three provinces and cities in Vietnam. The financial figures in this report are referenced from the audited financial statements for 2024.

Feedback

MESSAGE FROM THE CHAIRMAN

MR PHAN DUC TU

Chairman of BIDV's Board of Directors

Dear Stakeholders,

First of all, on behalf of the Joint Stock Commercial Bank for Investment and Development of Vietnam ("BIDV"), I would like to express my sincere gratitude to all customers, shareholders, investors, partners and stakeholders for your trust, support and companionship in BIDV's operations over the past time.

Green Bank Strategy

The world is facing climate change, energy crisis and environmental degradation risk. As one of the pioneering countries promoting green economic development and circular economy, at the 26th Conference of the Parties to the United Nations Framework Convention on Climate Change (COP26), the Vietnamese Prime Minister made Vietnam's commitment to bring Net Emissions to "0" by 2050. Therefore, Green Financial Development is an inevitable direction of Vietnam in its efforts to achieve the above goal. The Green Banking Development Project in Vietnam, issued under Decision 1604/QĐ-NHNN dated August 7, 2018, set a common goal for the entire industry: "gradually greening banking activities, directing credit flows into financing environmentally friendly projects, promoting green production, services and consumption, clean energy and renewable energy; actively contributing to promoting green growth and sustainable development".

Recognizing the role and significance of sustainable growth, green economy, and circular economy for the overall Vietnamese economy,

right from the time of building the strategy for the period 2021 – 2025, a vision to 2030, BIDV has determined "towards sustainable development" as a consistent goal in banking activities, with the Vision of "Pioneering in creating sustainable values". The implementation of the National Strategy on Green Growth and the National Strategy on Climate Change was integrated into the process of orientation, development and implementation of BIDV's strategy and plan to promote green credit, environmental, social and governance (ESG) risk management. Accordingly, BIDV pursues the strategy of positioning the Green Bank Brand, becoming a market leader in ESG practices and sustainable finance, gradually approaching international standards on green finance and implementing the roadmap to transform into a Net-Zero Bank by 2045.

Leading bank in green finance

As the bank with the largest credit scale in the system, BIDV always has a clear strategic vision on developing green credit and green banking. The bank has been always a pioneer in implementing "green credit" packages, dedicating a proportionate resources to financing customers in the fields of renewable energy, clean energy, low-carbon production and consumption industries, adapting to climate change, thereby contributing to transforming the economy towards green growth, protecting the environment, preventing climate change, improving the efficiency of resource and energy use, demonstrating responsibility to the community and the environment.

BIDV is the first Vietnamese commercial bank to issue a 'Sustainable Loan Framework' and a 'Green Bond Framework' in accordance with international standards, to provide green, social, and sustainability-linked loan products to domestic corporate clients, focusing on financing customers in the fields of renewable energy, clean energy, and low-carbon manufacturing and consumption industries. Besides, BIDV also issued an Environmental and Social Management System in Trade Finance (ESMS Framework), marking a pioneering step in accompanying import-export enterprises to promote global trade, strengthen value chains, and achieve sustainable growth.

Green credit has been determined by BIDV as one of the top priority targets in its long-term strategy. With the current green loan balance, BIDV plans to continue to increase its loan balance and green credit ratio annually and strive to maintain its position as one of the leading banks in terms of market share and green credit scale provided to the market. For enterprises, BIDV has implemented a number of green credit programs such as VND4,200 billion credit package for textile and garment enterprises that meet international sustainability standards/certificates, VND10,000 billion package for environmentally friendly, resource-saving and efficient projects, VND5,000 billion package to finance clean water production and supply projects, etc. For individual customers, BIDV has implemented a VND10,000 billion loan package to serve the needs of life using green energy products, renewable energy or production and business in the green sector, etc. Moreover, BIDV also strengthens collaboration with major domestic and foreign electric car companies to implement policies for individuals to borrow money to buy cars. By the end of December 31, 2024, BIDV maintained its leading position in the market in green sector financing with a total of 1,982 projects, for 1,600 customers, with outstanding loans reaching VND80.8 trillion (equivalent to USD 3.2 billion), accounting for 4% of BIDV's total outstanding credit and about 11.5% of the total outstanding loans for the green sector of the entire economy.

In terms of capital mobilization activities, in 2024, following the success of the VND 2,500 billion Green Bond issuance in 2023, BIDV launched the Green Deposit product in June 2024, successfully mobilizing VND 5,000 billion. In September 2024, BIDV successfully issued VND 3,000 billion of sustainable bonds in compliance with the Guidelines of the International Capital Market Association (ICMA). With this issuance, BIDV has become the first organization to successfully issue sustainable bonds in the domestic market. Through two consecutive green bond and sustainable bond issuances in two consecutive years with a total successful offering value of VND 5,500 billion (~ USD 220 million), BIDV continues to maintain its position as the No.1 ESG bond issuing credit institution in the domestic market, while contributing to the development of the sustainable finance sector in Vietnam.

In addition to providing green credit from commercial capital, BIDV is a strategic partner of many international financial institutions and is the leading bank in foreign capital trust activities serving sustainable development goals. Up to now, BIDV has been managing more than 250 foreign capital trusts from the governments of Germany, Switzerland, France, Japan, Korea and major international financial institutions such as WB, AFD, ADB, KFW, NIB, EIB, JICA, EDCF, WHO, UNICEF, etc. with a total committed value of USD19.7 billion (equivalent to VND500,000 billion).

Comprehensive Digital Transformation to Build an Ecosystem of Green Banking Products

With a vision to become a large, strong, green bank by 2030, being the leading financial institution in Southeast Asia, with the best digital platform in Vietnam, BIDV focused our resources to accelerate comprehensive digital transformation in all aspects of operations, applying technology along with building environmentally friendly habits for customers within the framework of banking products and services, strongly developing electronic transaction channels, services, and new payment methods on technology platforms to build an ecosystem of green banking products, such as: "Green savings, healthy life", "Green loans for Textile and Garment enterprises", "Steady steps for a green life" packages for individual customers, "Hello Green Summer with BIDV card", "Green Journey with BIDV" products in order to increase the number of customers receiving email statements and not receiving paper statements.

Towards the Net Zero target

BIDV has comprehensively and consistently implemented a sustainable development strategy, promptly established a Steering Committee and a Project Management Board to develop and implement a sustainable development strategy and overall ESG practices with the goal of making BIDV the leading bank in the Vietnamese market in promoting green and sustainable development, orienting BIDV to become a carbon-neutral/Net-zero bank in business operations according to domestic and international green/sustainability standards. In May 2024, with the support of Allotrope Partners, BIDV implemented a Greenhouse Gas Emissions Assessment Project and set targets according to international standards to assess and improve capacity in measuring and estimating greenhouse gas emissions (in all 3 scopes 1, 2, 3) as a basis for establishing a roadmap to transform into a Net-Zero Bank.

Pioneering bank in issuing Sustainability Report according to Global Reporting Initiative (GRI). BID stock has been selected by HOSE in the list of 20 most sustainable stocks in the Vietnamese Stock Market

BIDV is the pioneer bank in issuing an independent Sustainability Report according to international standards GRI and referring to the United Nations' sustainable development goals, providing transparent information for international organizations to evaluate the effectiveness

and status of ESG implementation at BIDV. In July 2024, BID stock was selected by the Ho Chi Minh City Stock Exchange (HOSE) in the list of Vietnam Sustainable Development Index (VNSI), in the TOP 20 enterprises with the highest sustainability score in the market. According to the announcement in November 2024 by the Sustainable Development Report Selection Council of the Ho Chi Minh City Stock Exchange. Ho Chi Minh Stock Exchange with technical support from professional partner, the Association of Chartered Certified Accountants (ACCA), BIDV's Sustainability Report was honored in the TOP 10 Best Sustainability Reports in the Vietnam Stock Market in 2024.

Pioneer in implementing social responsibility for the community, ensuring the rights of shareholders and employees

In addition to business activities, BIDV also affirms its pioneering role in fulfilling social responsibilities for the community, effectively implementing social security work, focusing on key areas in line with the Government's sustainable development orientation. BIDV is the pioneer bank in implementing the Program to reduce lending interest rates to support individuals and businesses affected by Typhoon Yagi. In 2024, BIDV has implemented nearly 200 social security sponsorship programs with a total amount of VND450 billion. Prioritizing funding for the fields of education, health, housing for the poor, overcoming the consequences of natural disasters, Tet gifts for the poor, etc. In 2024, BIDV continued to implement key social security programs for Green Life towards sustainable development. BIDV continued to implement the BIDV Run - For Green Life, BIDV Run - Warm Tet for The Poor, planting 1 million trees, building community houses to avoid floods, the "Fresh Water for Green Life" program donates 1,221 water tanks to support people to overcome drought and salinity disasters in the provinces of Bac Lieu, Ca Mau, Kien Giang, Tra Vinh, etc.

BIDV always cares about creating a professional working environment, with promotion opportunities and attractive income for all employees, becoming a bank where all the best people want to work and contribute. In 2024, the average salary of employees increased by 7.4% compared to 2023, maintaining the growth momentum for five consecutive years. BIDV was honored with the award "Best Workplace in Asia 2024" and "The Best Employee Care Company 2024". The awards were presented by HR Asia Magazine, a prestigious magazine on human resources in Asia, based on the survey results of 704 Asian enterprises.

In 2024, BIDV completed paying stock dividends to all existing shareholders at a payout ratio of 21%. BIDV is committed to bringing sustainable, long-term benefits and values to shareholders with stable dividends and increased stock value, creating a long-term bond between investors and the Bank, which is a stock that every investor wants to hold.

Once again, on behalf of BIDV's Board of Directors, I would like to express my sincere gratitude to all Customers, Shareholders, Investors, Partners and stakeholders who have trusted and supported BIDV over the past time.

BIDV'S FOOTPRINT ON THE SUSTAINABLE DEVELOPMENT JOURNEY

Green transformation journey

Recognizing that green transition is an inevitable trend and a key solution to climate change, BIDV proactively integrates green elements into its credit activities, environmental and social risk management, and the development of green financial products. Through these efforts, the Bank contributes to promoting the green transition within the banking sector. BIDV is committed to supporting and contributing to Vietnam's national goal of achieving Net-Zero carbon emissions by 2050.

Green Credit

In 2024, BIDV continued to maintain its position as the bank with the largest green credit portfolio in the market.

Medium- and long-term credit package

75,000 VND
BILLION

offering preferential interest rates for renewable and clean energy projects.

After six months

4,122 VND
BILLION

was disbursed to 46 priority clients

Green loan package for the textile and garment sector with outstanding loan balance

1,415 VND
BILLION

maintaining a 0% rate of Group 2 non-performing loans (demonstrating strong credit quality)

Expanding the green credit portfolio:

Clean water supply projects

5,000 VND
BILLION

Green infrastructure projects

10,000 VND
BILLION

Support for green transition of port and logistics enterprises

2,000 VND
BILLION

As of 31 December 2024:

Total outstanding green credit reached

80,870 VND
BILLION

accounting for around 4% of BIDV's total loan portfolio, of which 74.2% was allocated to renewable and green energy sectors

BIDV'S FOOTPRINT ON THE SUSTAINABLE DEVELOPMENT JOURNEY

Green transformation journey

Green Bonds, Sustainable Bonds

Green Bonds

October, 2023

BIDV was the first bank to successfully issue

2,500 VND
BILLION

in green bonds under the Green Bond Framework developed in accordance with ICMA guidelines in the domestic market, receiving an SQS2 rating ('Very Good') from Moody's.

October, 2024

BIDV published the Allocation Report

2,500 VND
BILLION

for its VND 2,500 billion green bond proceeds, which were fully disbursed to eligible green projects. The report was independently assessed for compliance by FiiRatings, reaffirming BIDV's transparency and its strong commitment to comprehensive information disclosure to investors and the market.

Sustainable Bonds

August, 2024

BIDV continued to publish its Sustainable Bond Framework in accordance with ICMA guidelines

receiving an SQS2 rating ('Very Good') from Moody's - demonstrating a high level of compliance with international standards.

Successfully issued

3,000 VND
BILLION

Sustainable Bond, affirming BIDV's position as the leading ESG bond issuer among financial institutions in Vietnam.

Capital has been efficiently allocated to social projects, sustainable transportation, renewable energy (including solar, wind, and hydropower), and green buildings.

BIDV'S FOOTPRINT ON THE SUSTAINABLE DEVELOPMENT JOURNEY

Green transformation journey

Green Deposits

In 2024, BIDV launched its Green Deposit product for the first time, committing to allocate mobilized funds exclusively to green projects focused on energy efficiency, emission reduction, and environmental protection.

- This product not only serves as a safe investment channel but also enables enterprises to optimize capital utilization, enhance brand value, and contribute to the sustainable development of the community.

BIDV successfully mobilized

5,000 VND BILLION
green deposits

within 2 months of launch

Accelerating Digital Transformation to Support Environmental Protection

- Deployment of the internal management system B.One
- Implementation of the cash vault management application B.Cash
- Digitalization of the online SJC gold purchasing service
- Biometric authentication features for transaction verification
- Private Cloud infrastructure
- IT monitoring system – ManageEngine
- Core Banking system enhancements
- Centralized digital signature system
- Process automation using RPA (Robotic Process Automation) technology

Enhancing Internal Management and Governance through Digital Platforms

- Ongoing review of clients subject to greenhouse gas inventory requirements in accordance with Decision No. 01/2022/QĐ-TTg dated January 18, 2022.
- Continued reduction of coal power lending in line with the Government's vision toward 2050.

BIDV'S FOOTPRINT ON THE SUSTAINABLE DEVELOPMENT JOURNEY

Building a sustainable society

In 2024, BIDV made significant contributions to community support through various social welfare and philanthropic initiatives. At the same time, the Bank placed strong emphasis on technology investment and human resource development, digitalizing service processes, and enhancing product quality and customer service. BIDV continuously develops new services to keep pace with market trends, thereby laying a solid foundation for strengthening its brand value in the future.

Contributing to Community Development

BIDV has consistently taken the lead in social welfare initiatives, focusing on essential areas to improve the quality of life within communities. In 2024, BIDV implemented nearly 200 social welfare programs with a total budget of VND 330 billion.

BIDV'S FOOTPRINT ON THE SUSTAINABLE DEVELOPMENT JOURNEY

Building a sustainable society

Commitment to Gender Equality

At BIDV, there is no gender-based discrimination in any policies, regimes, or operations of the Bank.

● Female

Comprehensive Employee Well-being

- BIDV has been recognized by numerous reputable domestic and international organizations.
- Ranked 2nd among credit institutions and 13th overall in Vietnam in the "Best Places to Work in Vietnam" survey conducted by Amphabe.
- For the first time, BIDV was honored at the international HR awards – Best Companies to Work for in Asia 2024 in two categories "Best Companies to Work for in Asia 2024" and "Most Caring Company for Employees 2024"
- BIDV was also awarded the title of Outstanding Enterprise for Employees 2024 by the Vietnam General Confederation of Labour, the Ministry of Labour, Invalids and Social Affairs, and the Vietnam Chamber of Commerce and Industry.

Deputy CEO Le Trung Thanh and the BIDV team received the "Best Place to Work in Vietnam 2024" award.

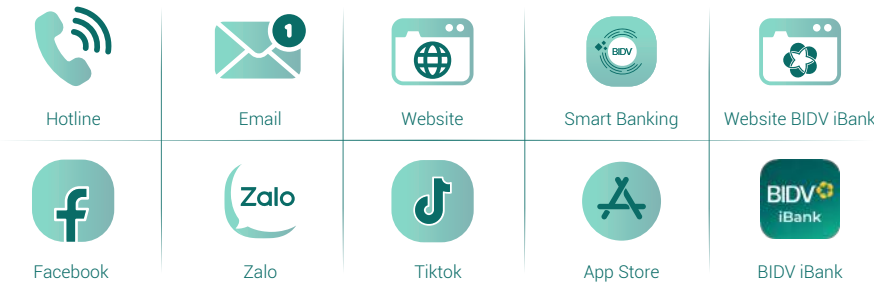

BIDV was honored as an "Outstanding Enterprise for Employees 2024"

BIDV'S FOOTPRINT ON THE SUSTAINABLE DEVELOPMENT JOURNEY

Building a sustainable society

Enhancing Customer Experience and Multi-Platform Support

- BIDV expanded its customer care platforms on the BIDV iBank app and website, increasing the total number of digital touchpoints available for customer interaction to 10 channels.

Integration of AI-powered Chatbot across all customer interaction channels

Customer support capacity doubled with

6.2 million multi-channel interactions handled

Deployment of Zalo ZNS to provide supplemental information after calls, ensuring comprehensive consultation and reducing the need for follow-up contact

60 % of customer inquiries are handled automatically via Voicebot, Chatbot, and IVR systems

BIDV is committed to proactive, end-to-end customer service to address inquiries thoroughly and deliver an optimal, seamless experience

Automated Support Systems

24/7

Improved authentication processes have increased security while reducing customer verification time by up to 25%

- Automated Authentication via SmartBanking
- Authentication via domestic debit cards
- Pilot implementation of voice biometrics

BIDV'S FOOTPRINT ON THE SUSTAINABLE DEVELOPMENT JOURNEY

Promote transparent and effective governance

BIDV continuously enhances governance effectiveness by upholding its commitment to legal compliance and ethical business standards. The Bank places particular emphasis on comprehensive risk management and strengthens transparency across all areas of operation, thereby reinforcing trust and elevating its brand reputation in the market.

100 %
compliance guarantee

- **100%** of BIDV's leaders and employees across the entire system have been trained and signed a commitment to comply with **the Corporate Culture Handbook**.

- **100%** of BIDV's leaders and employees have been informed and thoroughly briefed on legal documents and internal regulations related to **anti-corruption, anti-negativity, and crime prevention**.
- **100%** of BIDV's leaders and employees have been educated and internalized **risk control culture** through materials, knowledge contests, and initiatives that embed risk control as an integral part of BIDV's daily operations—fostering a strong internal environment to ensure the Bank's safe and sustainable development.

Environmental Impact Assessment, ESG Risk Governance / Environmental Risk Management in Credit Activities

- BIDV conducts environmental risk assessments for 100% of investment projects with potential environmental impacts, in accordance with regulations issued by the State Bank of Vietnam.

- In 2024, BIDV developed and finalized tools for:

Categorizing projects based on environmental risk levels

Assessing environmental risks

These tools were designed to comply with legal regulations and to streamline the environmental risk assessment process for staff, thereby reducing evaluation time.

Environmental and Social Risk Management Framework for Trade Finance Activities (ESMS Framework)

- In October 2024, BIDV became a pioneer by issuing the Environmental and Social Risk Management Framework (ESMS) for trade finance activities, marking a significant step forward in supporting import-export enterprises to promote global trade and achieve sustainable growth.

Transparent and reliable information disclosure

31 Periodic disclosures
132 Ad hoc disclosures

Information is disclosed in a timely and comprehensive manner

Corporate Governance Practices in Line with International Standards

BIDV is actively studying the application of corporate governance in accordance with:

ASEAN Corporate
Governance
Scorecard

OECD Principles
of Corporate
Governance

Best Practice Corporate
Governance Principles
(jointly developed by the State Securities
Commission of Vietnam and the IFC)

BIDV'S FOOTPRINT ON THE SUSTAINABLE DEVELOPMENT JOURNEY

Promote transparent and effective governance

Implementing ESG in Banking Operations

In 2024, the ESG Steering Committee and ESG Strategy Project Management Unit actively and promptly carried out tasks related to ESG implementation.

BIDV partnered with a leading consultancy to implement the Comprehensive ESG Strategy Development Project

The project is expected to be completed within nine months and marks a breakthrough in harmonizing BIDV's ESG initiatives across the entire organization.

International Collaboration to Implement the Greenhouse Gas Emissions Assessment Project

- BIDV is collaborating with international partners to implement a Greenhouse Gas (GHG) Emissions Assessment Project covering all three emission scopes. The project aims to set internationally aligned emission reduction targets, laying a solid foundation for BIDV's roadmap toward becoming a Net-Zero emissions bank by 2045. The project is expected to span 10 months and will be completed in 2025.

Development and Publication of the Sustainability Report

- In 2023, BIDV published its first standalone Sustainability Report, developed comprehensively in accordance with the Global Reporting Initiative (GRI) Standards. The report was honored as one of the Top 10 Best Sustainability Reports on the Market at the 2024 Annual Listed Companies Conference, co-organized by the Ho Chi Minh City Stock Exchange (HOSE), the Hanoi Stock Exchange (HNX), and Vietnam Investment Review.
- In July 2024, BID shares were included by HOSE in the list of the Top 20 most sustainable stocks on the Vietnamese stock market, as part of the Vietnam Sustainability Index (VNSI).

Internal ESG Training

- Internal training sessions were organized under the framework of the ESG Strategy Development Project and the Greenhouse Gas Emissions Assessment Project, covering topics related to ESG, sustainable finance, and more.
- An ESG training plan for 2024 was developed for BIDV staff across the entire system. Four internal ESG training courses were held, with nearly 300 participants, and online training was delivered to Head Office staff via the Udemy platform.
- Staff members were nominated to attend specialized ESG workshops and engaged in direct exchanges with reputable international banks and organizations to learn, share experiences, and explore opportunities for sustainable financing.
- BIDV proactively conducted research and explored the recommendations made by ADB consultants regarding sustainability strategy and green credit, within the framework of an ADB-funded technical assistance project.

SUSTAINABLE DEVELOPMENT ORIENTATION

Being aware of the role and significance of green banking, sustainable development, and ESG practices in BIDV's business operations, BIDV has identified its overarching goal in its long-term business strategy and orientation as "towards sustainable development" with a focus on promoting green credit, sustainable finance, and contributing to the comprehensive development of the society.

GOALS

BIDV follows the strategy of positioning itself as a Green Bank, aiming to become a market leader in ESG practices and sustainable finance, gradually aligning with international standards on green finance and implementing the roadmap towards becoming a Net-Zero Bank.

ORIENTATION

BIDV aims to promote green and sustainable financial development to contribute to the green and sustainable transformation of the general economy. Moreover, BIDV also pursues this strategy by transforming internal operations, greenifying operations; and promoting social responsibility for the community.

SOLUTIONS

1

- Focusing resources on building a comprehensive sustainable development strategy and ESG practices at BIDV, striving to make BIDV the leading bank in Vietnam in green development, sustainability, and ESG practices.

2

- Implementing "green credit" packages associated with environmental risk management in credit activities, allocating a certain proportion to finance customers in renewable energy, clean energy, low-carbon production and consumption industries, and those focusing on climate change adaptation. Therefore, BIDV aims to contribute to transformation of the economy towards green growth, environmental protection, preventing climate change while improving the efficiency of resource and energy use. This approach demonstrates BIDV's responsibility to the community and the environment.

3

- Emphasizing on researching and developing sustainable financial products for customers, contributing to overall green and sustainable growth process.

4

- Accelerating digitalization, applying it to internal processes and Customer Service Delivery to Conserve Resources, Save Energy, and Minimize Environmental Impact.

5

- Promoting sustainable practices while minimizing environmental impacts from internal operations.

6

- Focusing on organizing training courses, enhancing awareness and capacity for staff on sustainable development, green growth, green credit, and green banking.

7

- Developing diverse products and services, modernizing distribution channels, contributing to the implementation of the National Comprehensive Financial Strategy to 2025, with a vision to 2030.

8

- Leading in fulfilling social responsibility for the community, spreading human values to customers and the public.

9

- Researching and finding solutions to support customers in emission measurement and green transition.

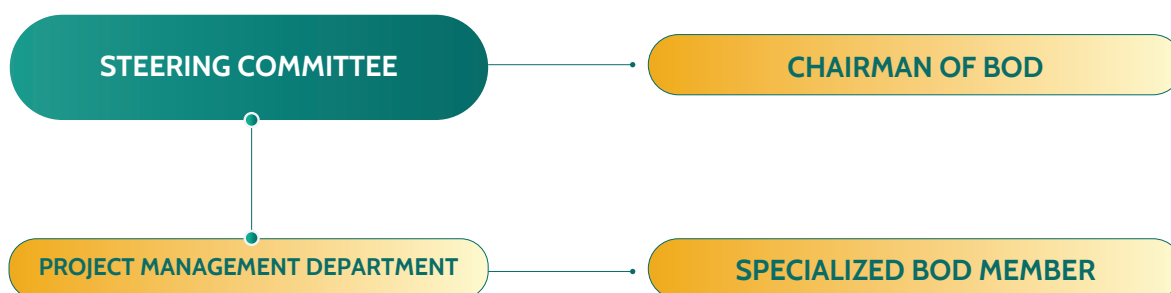

GOVERNANCE STRUCTURE FOR SUSTAINABLE DEVELOPMENT PRACTICES

ESG governance model

BIDV is always aware of the importance of integrating ESG factors into business operations to ensure sustainable development and create long-term value for stakeholders. While there are increasing demands and challenges related to sustainable development, BIDV is in the process of strengthening its governance structure to operate ESG effectively and meet international standards.

Developing and implementing an ESG governance model is one of BIDV's top priorities. We are committed to establishing a comprehensive ESG governance system, including structures, processes and policies necessary to ensure that ESG factors are integrated into every aspect of our business operations. The ESG governance model that the bank aims for includes the following main components:

STEERING COMMITTEE AND PROJECT MANAGEMENT UNIT FOR THE DEVELOPMENT AND IMPLEMENTATION OF THE COMPREHENSIVE SUSTAINABILITY STRATEGY AND ESG PRACTICES

Roles and responsibilities of each unit in ESG governance

- The Steering Committee – led by the Chairman of the Board of Directors, responsible for providing high-level direction and overseeing the implementation of the bank's overall Sustainable Development Strategy.
- Project Management Committee – led by a Board Member, responsible for researching, developing and implementing the bank's strategies, plans, policies, action programs, and commitments related to sustainable development activities. The members participating in the Project Management Board also includes the General Director, Deputy General Directors and Directors/Deputy Directors of various units.

STAKEHOLDERS ENGAGEMENT

BIDV deeply understands that success in implementing sustainable development strategies is inseparable from the collaboration and contribution of stakeholders. Stakeholders play a key role in shaping and advancing the bank's sustainable activities.

BIDV identifies key stakeholders as including:

Process for engaging with key stakeholders

BIDV has established specific regulations within its Internal Governance Framework to protect the rights of stakeholders, as outlined by the Board of Directors. In this regard, BIDV actively collaborates with stakeholders, respecting their legitimate rights, ensuring compliance with labor and environmental regulations, and operating with responsibility towards both the community and society.

For each stakeholder group, BIDV develops and implements tailored methods of interaction, exchange, and information sharing through relevant forms and communication channels.

STAKEHOLDERS ENGAGEMENT

Stakeholders	Interaction method	Frequency of interaction	Interested Issues	BIDV's actions meet the requirements/expectations of the stakeholders
Customer	• Interview	• Quarterly	• The need for continuous use of financial solutions, products, services and customer information security • Quality of products and services provided by the Bank • Questions, complaints and other feedback	• Deploying many services applying modern technology to support customers in making quick and safe transactions • Trained staff to advise solutions and answer customers' questions and requests 24/7 periodic/ad hoc customer opinion surveys on product and service quality • Conduct periodic/unscheduled customer opinion surveys on product and service quality • Monitor customer feedback on social media
	• Contact Center and 24/7 Hotline Number	• Continuously 24/7

Impact Assessment Matrix

BIDV builds a matrix to assess the impact of material topics from low to high levels according to 2 dimensions: (i) impact on stakeholders and (ii) impact on

The list of related topics and their corresponding levels of impact is reviewed and updated annually by BIDV, ensuring that it is consistent with the Bank's operations as well as changes in the interests of stakeholders in BIDV.

Efficient resource utilization and reduction of operational emissions, with the goal of achieving Net-Zero in internal operations

TOPIC 1

Building and Strengthening Climate Resilience in Operations and Credit Portfolio

TOPIC 2

Use resources efficiently and promote transition to Net-Zero

E1

Building and strengthening climate resilience in operations and credit portfolio

Approach

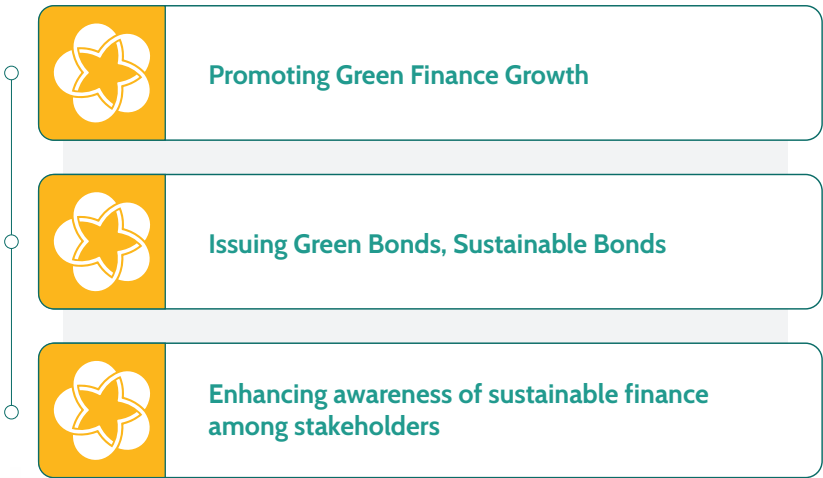

Climate change refers to long-term shifts in weather patterns, which may be due to natural processes or human activities. At BIDV, we fully recognize the critical importance of addressing climate change—not only to protect the environment but also to drive sustainable development.

Vietnam currently faces serious environmental challenges. Climate change has a profound impact on both daily life and the economy, largely due to extreme weather events such as storms, floods, and rising sea levels. In addition, environmental pollution—especially in major cities like Hanoi and Ho Chi Minh City—poses

significant public health risks. Unsustainable industrialization and urbanization further strain natural resources, pressure ecosystems, and diminish the environment's adaptive capacity.

Building resilience to climate change is an integral part of BIDV's development strategy. We are committed to implementing necessary measures to mitigate its impacts while supporting sustainable projects and initiatives that protect both the environment and communities. Accordingly, BIDV actively develops sustainable financial products in line with international standards, contributing to the Government's commitment to achieve Net-Zero by 2050.

Our initiatives

Building and strengthening climate resilience in operations and credit portfolio

Promoting Green Finance Growth – A Foundation for Sustainable Development

With the strategic vision of becoming a leading green finance bank in Vietnam, in 2024, BIDV implemented a series of comprehensive initiatives to accelerate green credit growth, expand international cooperation, and develop innovative sustainable financial products, thereby contributing to the realization of the national green transition goals.

Expanding Green Credit Packages and Green Loans

BIDV identifies green credit as a core focus of its long-term growth strategy, supporting businesses and individuals in investing in environmentally friendly projects. A number of green credit programs have been effectively implemented:

Package

10,000 VND
BILLION

for “Green Buildings”, providing financing for projects certified under international standards such as LEED, LOTUS, EDGE, and Green Mark

Green loan package

4,000 VND
BILLION

for textile and garment enterprises, supporting businesses in meeting international sustainability standards such as GRS, BCI, and ZDHC.

Preferential credit

for sectors such as clean water, seaports, and green agriculture, supporting the production and supply of safe food that meets standards such as VIETGAP, GLOBALGAP, HACCP, ISO 22000, and others.

Green consumer package

10,000 VND
BILLION

to support individual customers in adopting renewable energy, eco-friendly products, and electric vehicles.

Strengthening cooperation with VinFast and BYD to implement a preferential loan program for electric vehicle purchases.

As of December 31, 2024, BIDV had disbursed

1,319 VND
BILLION

from the VND 10,000 billion green credit package

358 VND
BILLION

for VinFast electric vehicles.

3 VND
BILLION

for BYD electric vehicles

Building and strengthening climate resilience in operations and credit portfolio

Promoting Green Finance Growth – A Foundation for Sustainable Development (continued)

Implementation of the Climate Credit Line from International Funding Sources

BIDV has officially launched a €50 million Climate Credit Line, funded by the French Development Agency (AFD), to finance projects that contribute to greenhouse gas (GHG) emission reduction, climate change adaptation, and sustainable development. The credit line aims to support investments that enhance Vietnam's resilience to climate change and facilitate the transition to a low-carbon economy. Eligible customers can access concessional funding from international sources to invest in green and climate-resilient projects.

In addition to concessional financing, AFD has provided a €200,000 technical assistance package for BIDV and its clients. This support focuses on enhancing environmental and social risk assessment capabilities and developing a robust green lending portfolio.

Strengthening Strategic Cooperation in Green Finance

BIDV continues to expand strategic cooperation with major international financial institutions such as AFD, the European Investment Bank (EIB), the World Bank (WB), the Nordic Investment Bank (NIB), KfW, and the Japan International Cooperation Agency (JICA) to mobilize preferential capital for green development initiatives.

In May 2024, BIDV and AFD signed a Comprehensive Partnership Agreement, reaffirming BIDV's position as a leading strategic partner of AFD in the Asia-Pacific region.

Development of Sustainable Loans and Sustainability-Linked Loans

In an effort to diversify its green financial product offerings, BIDV has undertaken the following initiatives:

- Issued the **Sustainable Loan Framework** (2023), updated in 2024 in alignment with international standards set by the LMA (Loan Market Association), LSTA (Loan Syndications and Trading Association), and APLMA (Asia Pacific Loan Market Association); the framework has been rated **SQS2 (Very Good)** by Moody's.
- Launched **Sustainability-Linked Loans (SLL)** – the first of its kind in Vietnam – applying preferential interest rates for customers who achieve specific Sustainable Development Goals (SDGs), thereby encouraging green investments and sustainable business practices.

Under this product, borrowers are eligible for interest rate incentives and other benefits upon the successful achievement of pre-agreed sustainability performance targets. This mechanism serves as a catalyst for green investments and contributes directly to national environmental objectives.

With the introduction of Sustainability-Linked Loans, BIDV proudly continues to take the lead in sustainable finance in Vietnam, reinforcing its commitment to supporting environmentally responsible projects and advancing the country's green development agenda.

Commitment to Exclude Financing for Environmentally and Socially Harmful Activities

BIDV continues to maintain a Credit Exclusion List, refraining from financing industries or activities that violate laws, international treaties, or cause harm to the environment and society.

BIDV aims for sustainable annual growth in green credit, striving to maintain its market-leading position and to accompany clients on their green transition journey toward a sustainable and carbon-neutral future by 2050.

“

The long-term benefits for businesses accessing funding under the Sustainable Loan Framework are evident: access to concessional financing, enhanced competitiveness, and strengthened brand positioning.

Mr Tran Long,
Vide President of BIDV

Building and strengthening climate resilience in operations and credit portfolio

Promoting Green Finance Growth – A Foundation for Sustainable Development (continued)

As a pioneer in sustainable finance, BIDV has affirmed its leadership position in Vietnam by implementing ESG bond products, making significant contributions to the provision of long-term capital for environmentally friendly and community-oriented projects.

Green Bonds – A Milestone in the Journey Toward Sustainable Finance

In October 2023, BIDV issued its Green Bond Framework in accordance with the principles of the International Capital Market Association (ICMA). Shortly thereafter, BIDV became the first commercial bank in Vietnam to successfully issue VND 2,500 billion in green bonds aligned with international standards in the domestic market.

The proceeds were fully disbursed within 2023 to finance renewable energy and sustainable transportation projects.

In October 2024, BIDV conducted a post-issuance allocation report, which was independently reviewed by FiiRatings. The report was publicly disclosed on BIDV's official website, reaffirming BIDV's commitment to transparency and accountability in sustainable finance.

Sustainability Bonds – Expanding Financing for Environmental and Social Projects

Building on the success of its green bond issuance, in August 2024, BIDV introduced its Sustainability Bond Framework with technical assistance from the World Bank. The framework aligns with ICMA's Sustainability Bond Guidelines and is designed to broaden financing beyond environmentally friendly initiatives to also include projects with positive social impacts.

Shortly thereafter, BIDV successfully issued VND 3,000 billion in sustainability bonds, reaffirming its leading position as the top ESG bond issuer among credit institutions in Vietnam.

The entire VND 3,000 billion was allocated to finance projects such as social housing, solar and wind power, green buildings, and sustainable transportation.

BIDV's ESG Bond Framework: Aligned with International Standards – Strengthening Market Confidence

Both BIDV's Green Bond and Sustainability Bond Frameworks have been rated SQS2 – Very Good by Moody's, affirming:

A rigorous project selection, evaluation, and management process

A transparent and accountable governance and reporting mechanism

High compliance with international standards

BIDV's two ESG Bond Frameworks are structured around four core pillars:

use of proceeds

①

project evaluation and selection process

②

transparent reporting mechanisms

④

proceeds management

③

Plan to Expand Green Financing Capacity by 2025

Research and Development of New ESG Bond Products

Enhancing Green Financing Capacity for the Economy

Affirming the Leading Position in Sustainable Finance in Vietnam

BIDV's ESG bond products not only provide sustainable funding for businesses and community-focused projects, but also enhance investor and stakeholder confidence. These efforts serve as a clear testament to BIDV's commitment to sustainable development and its contribution to the green transformation of the economy

Building and strengthening climate resilience in operations and credit portfolio

Enhancing awareness of sustainable finance among stakeholders (continued)

Cooperation in organizing the “The Money verse” program

Since 2024, BIDV has officially become a strategic partner with The Money verse (TMV) for its first season, thereby affirming its role not only as a provider capital for key national projects but also as a pioneer in implementing the Comprehensive Financial Strategy, enhancing personal finance literacy among Vietnamese citizens—especially the youth. TMV is also the first program to gather a team of financial and banking experts (including representatives from the State Securities Commission, Tax Department, National Financial Supervisory Commission, State Bank of Vietnam, BIDV, SSI, Dragon Capital, E&Y, Academies and major universities...) to participate in the developing and advising on content. BIDV has sent 08 representatives to participate in the Content Consulting Expert Group and as judges for the program (including Chief Economist, PhDs, Leaders of TSC units and the Institute of Training and Research), marking BIDV's strong commitment in this field.

Furthermore, BIDV's team of personal financial knowledge consultants has directly engaged with twenty-four major universities nationwide. Moreover, BIDV has sent more than twenty leaders from TSC units and branches responsible for university relations to participate as “Financial Doctors” to advise and answer students' questions on financial topics, inspiring students.

Launching green credit growth movement

In 2024, BIDV launched a green credit growth competition for both business and individual customers. Based on the performance in two phases (April–June and July–September 2024), ten groups and twenty individuals were awarded for outstanding, with total prize valued at VND 90 million.

The movement not only encourages customers to increase their borrowing for environmental protection projects, but also contributes to raising public awareness of the importance of green credit in sustainable development. This is one of BIDV's efforts to fulfill its commitment to becoming a “Green Bank”, accompanying the Government in the national green growth strategy.

E2

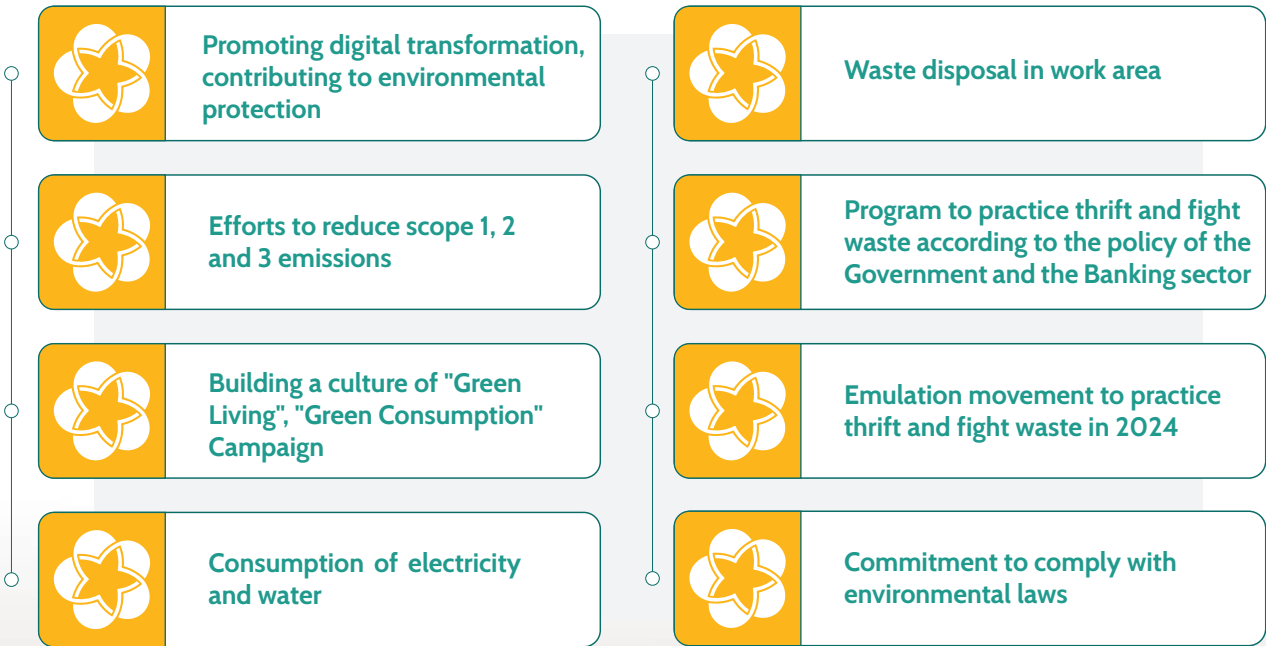

Use resources efficiently and promote transition to Net-Zero

Approach

Vietnam is among the countries significantly affected by climate change, manifested through extreme weather events such as storms, floods, droughts and rising sea levels. Concurrently, Vietnam faces challenges related to efficient resource management and environmental protection amidst economic development. In this context, BIDV recognizes the importance of transitioning to a sustainable development model and Net Zero to ensure long-term and sustainable development for the country.

At BIDV, we are committed to using resources efficiently and aiming for Net Zero to minimize negative impacts on the environment and contribute to sustainable development.

Our initiatives

E2

Use resources efficiently and promote transition to Net-Zero

Accelerating digital transformation to foster operational efficiency and contribute to environmental sustainability

BIDV is committed to enhancing the application of information technology (IT) to accelerate digital transformation, optimize operational efficiency, and elevate customer experience. With a vision to become 'the leading financial institution in Southeast Asia with the best digital foundation in Vietnam' by 2030, BIDV is focusing its resources on:

Accelerating comprehensive digital transformation across all operational areas.

Integrating technology with the promotion of environmentally friendly customer behaviors through banking products and services.

Expanding digital banking channels and introducing innovative, technology-driven services and payment methods to build a green banking product ecosystem.

To realize this strategy, BIDV has issued its Digital Transformation Strategy for the period 2021–2025, with a vision to 2030. The strategy encompasses 11 key targets and 299 initiatives across all areas of operation. As of December 2024, BIDV has successfully completed nearly 80% of these digital transformation initiatives and targets, and is on track to achieve its goals by 2025.

698.3

 VND
BILLION

invested in technology innovation in 2024

Key Digital Transformation Achievements in 2025

Deployment of the B.One Internal Management System: Helped reduce operational costs, minimize paper usage, and enhance management efficiency.

Implementation of the B.Cash Treasury Management Application: Digitalized 90% of cash handling and vault processes, optimizing operations and strengthening cash flow control.

Development of Digital Products and Services: Successfully digitalized the SJC gold purchasing service within just five working days, reaffirming BIDV's market-leading service quality.

Launch of Biometric Transaction Authentication Feature: BIDV is among the first banks to integrate with the Ministry of Public Security's VNeID system, providing an additional method for customer identity verification and data collection.

Private Cloud System: The first private cloud infrastructure among Vietnam's Big Four banks, enhancing IT capacity, optimizing resource and infrastructure utilization, and enabling secure storage and processing of confidential data.

IT Monitoring System – Manage Engine: Improved monitoring performance and accelerated incident root-cause analysis.

Core Banking System Enhancement: Streamlined processing time, increased staff productivity, and improved customer experience.

Centralized Digital Signature System: Widely adopted to reduce manual processes and promote a paperless working environment.

Automation of Processes Using RPA (Robotic Process Automation): Developed and upgraded 11 automated processes to replace repetitive tasks and reduce manual workload.

E2

Use resources efficiently and promote transition to Net-Zero

Accelerating digital transformation to foster operational efficiency and contribute to environmental sustainability (continued)

In 2024, BIDV launched the "BIDV Green Mission" – the first interactive environmental protection game integrated into the BIDV SmartBanking application. Through each gameplay session, customers participate in rescuing marine creatures from plastic waste, contributing to reforestation efforts, and stand a chance to win hundreds of thousands of attractive prizes with a total value of up to VND 3 billion. By introducing BIDV Green Mission, BIDV has taken a pioneering step in embedding environmental awareness and corporate social responsibility into its digital banking platform. The initiative combines a simple, intuitive game interface with appealing "Go Green" rewards, thereby enhancing public consciousness and encouraging community engagement in marine environmental protection.

Looking ahead to 2025, BIDV remains committed to integrating environmental, social, and technological considerations into its digital transformation program, with a strategic focus on the following key initiatives:

Upgrade of the enterprise-wide internal management system – B.One: Continued rollout of new functionalities aimed at enhancing the efficiency of internal operations.

Foreign Exchange Trading System (FX Hub): Centralization and maximal automation of foreign exchange transactions, enabling multi-channel servicing and meeting the diverse needs of both individual and institutional clients.

Notification Hub System: Expansion to cover all BIDV customers, contributing to improved processing efficiency and reduced maintenance costs.

Centralized Teller Operations System (BIDV Smart Counter): Centralizing and fully automating customer-facing transactions to optimize service delivery.

Expansion of digital signature adoption and continued digitization of treasury operations (B.Cash): Improving operational efficiency while reducing paper consumption and promoting resource sustainability.

BIDV is affirming its pioneering role in Vietnam's digital banking sector through a comprehensive digital transformation strategy aligned with its sustainable development objectives. This strategic effort not only enhances operational efficiency and customer experience but also contributes to the development of a green, environmentally friendly banking model.

E2

Use resources efficiently and promote transition to Net-Zero

Building a culture of "Green Living", "Green Consumption" Campaign

In 2024, BIDV continued to strongly promote the "Green Living" culture across its entire system, reaffirming its commitment to becoming a "Green Bank" in line with its sustainable development orientation. Notable initiatives include:

Launch of the "LET'S GO GREEN" campaign throughout the organization to raise awareness and promote environmental responsibility among employees.

Development of the "Green School" project in Nghe An and Dak Lak, funded by the BIDV Trade Union Social Fund, aiming to promote environmental awareness in education.

Implementation of a bank-wide corporate culture survey to assess the understanding and practice of green values within BIDV.

Initiation of the "Green Consumption" campaign, encouraging employees to prioritize eco-friendly products and foster sustainable consumer behavior.

Awarded First Prize at the "Green Banking Contest" organized by the Vietnam Banking Trade Union (November 2024), affirming BIDV's pioneering role in building a sustainable banking model.

Rollout of the "21-Day Green Living Challenge" and continued implementation of the **"One Million Trees Planting Program"** (2022–2026). In 2024 alone, over 160,000 new trees were planted in provinces such as Cao Bang, Soc Trang, Quang Ngai, Tra Vinh, and Quang Binh—bringing the cumulative total to 357,000 trees planted nationwide.

BIDV has progressively fostered and promoted a green living culture across the organization through practical initiatives that engage employees with the bank's sustainable development goals. These efforts not only demonstrate a strong commitment to environmental protection but also contribute to shaping a positive and responsible lifestyle and consumption habits within the BIDV community.

BIDV was awarded First Prize at the 2024 Green Banking Contest

E2

Use resources efficiently and promote transition to Net-Zero

Efforts to reduce scope 1, 2 and 3 emissions

Scope 1

Direct emissions from sources owned/ controlled by the bank. Specifically, these sources include fuel use in bank vehicles, backup generators, and other fossil fuel-based equipment.

Scope 2

Indirect emissions from energy consumed by the bank. BIDV uses electricity to operate branches, offices and other infrastructure.

Scope 3

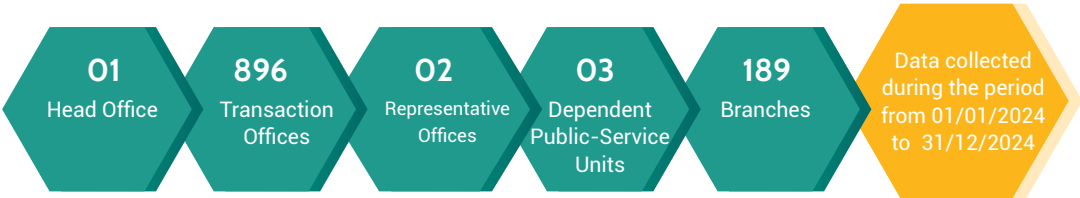

Other indirect emissions not included in Scope 2, arising from activities in the supply chain and activities related to the bank's services. These sources include emissions from employee business travel, use of services from suppliers and other activities in BIDV's value chain.

In 2024, BIDV focuses more on changing and raising awareness among employees in reducing direct emissions owned and controlled by the bank, as well as indirect emissions from the energy consumed by the bank. In addition to promoting the practice of "Green Living" and a friendly, environmentally friendly lifestyle, BIDV also focuses resources on accelerating comprehensive digital transformation across the system, including the strong development of technology-based products and services.

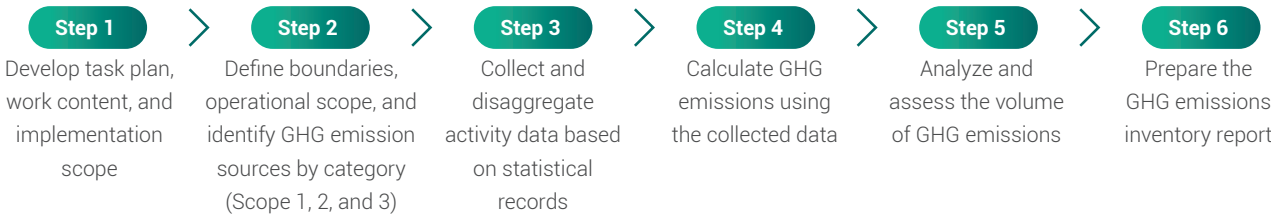

BIDV is committed to promoting sustainable development through cooperation with international consulting organizations to deploy early financial emission estimates according to international practice PCAF (Partnership for Carbon Accounting Financials) in the first quarter of 2025. This initiative will create a solid foundation for setting greenhouse gas emission reduction targets in a number of key areas in the bank's credit portfolio, prioritizing sectors with high emission levels and the ability to reduce emissions under the bank's influence. Assessing the importance of compliance with legal regulations in reducing Scope 3 emissions, BIDV has successfully reviewed customers in the greenhouse gas inventory list according to Decision No. 01/2022/QĐ-TTg dated January 18, 2022. Furthermore, with the Government's vision towards 2050, BIDV has also reduced coal-fired power loans according to Decision No. 500/QĐ-TTg dated May 15, 2023.

Through these efforts, BIDV not only contributes to environmental protection but also affirms its role in promoting sustainable economic development.

% KWH OF
ELECTRICITY / PROFIT
AFTER TAX
compared to 2023

REDUCE

3.64

% M3 OF
WATER / PROFIT
AFTER TAX
compared to 2023

In 2024, BIDV conducts research and complete the system of indicators to monitor the bank's electricity, water, and gasoline consumption. Based on monitoring changes in these indicators, BIDV will propose appropriate control and reduction measures.

Access to clean water is essential to human life and health and is recognized by the United Nations as a human right. With the specific nature of financial services business, at BIDV's headquarters buildings, the amount of water consumed during the year only includes purified drinking water, water for daily use in toilets and water for cooling the building's server and generator systems.

Waste disposal in work area

Recognizing the importance of saving and preventing waste on the environment, BIDV has focused on seriously implementing waste treatment in the working area, contributing to achieving the goal of becoming a "Net-Zero Bank" in the future:

Regular collection of household waste in WC and pantry areas: waste is sorted (recycled and remaining), collected many times a day, ensuring timeliness and cleanliness.

Assign clear responsibilities to each department/office in maintaining hygiene, self-collecting and dumping garbage in the right place.

Commit to not discharging toxic substances that affect the environment such as infectious, radioactive, flammable, explosive, corrosive or seriously polluting substances.

Provide large classified trash bins in the elevator lobby area on each floor; trash is collected in the centralized treatment area in the basement.

Proper waste treatment: household waste is collected daily by the urban environmental company; hazardous waste such as batteries, ink cartridges, waste oil, light bulbs, etc. is stored separately and treated periodically by a specialized unit.

E2

Use resources efficiently and promote transition to Net-Zero

Waste disposal in work area (continued)

WASTE

100 %

classified at sources

Discharge

- BIDV commits to absolutely not discharge waste containing toxic elements such as radioactive, infectious, flammable, explosive, corrosive, toxic, etc. affecting the environment.
- About waste:
 - BIDV operates in the financial sector, so the bank does not generate normal industrial solid waste
 - 100% of household waste generated through BIDV's operations is classified at source, stored in the right place and handed over to an environmental company to collect and treat in accordance with current standards.

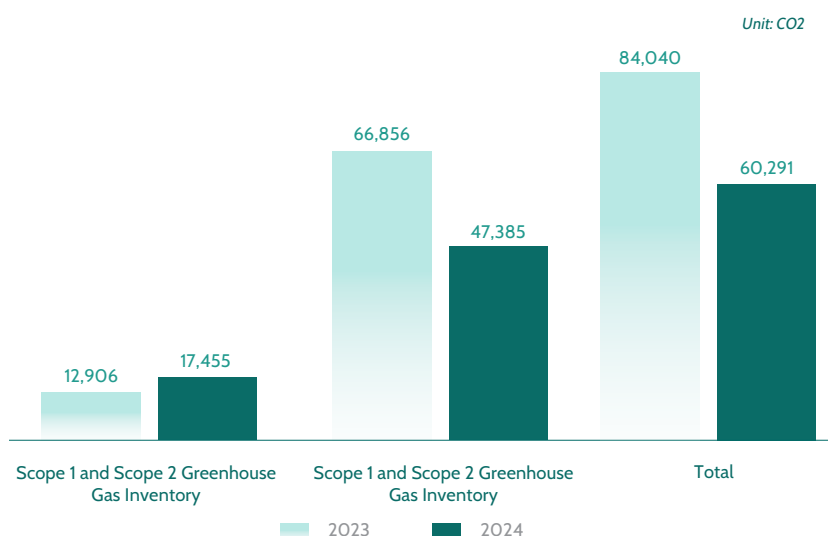

WASTEWATER

100 %

is eligible to be discharged into the environment

- About wastewater:
 - BIDV operates in the financial sector, so the bank does not generate production wastewater during operations.
 - 100% of domestic wastewater generated through BIDV's operations is eligible to be discharged into the environment.

Greenhouse Gas Emissions Comparison
2023 – 2024

Through these specific and continuous actions, BIDV not only ensures a green - clean - beautiful working environment but also actively contributes to the effort to reduce emissions and protect the environment in the long term.

Emulation movement to practice thrift and fight waste in 2024

In 2023, the CEO launched the emulation movement to practice thrift and fight against waste, identifying this as one of the main and regular emulation movements of units throughout the system. The emulation movement focuses on 3 main topics:

Topic 1	For the management, use and procurement of assets and working tools
Emulation in practicing thrift and preventing waste in performing tasks	 Procurement
	 Management and use of assets and working tools
	 Repair and maintenance of fixed assets and working tools

Program to practice thrift and fight waste according to the policy of the Government and the Banking sector

In order to implement the Government's policy, BIDV has developed and implemented the Program on Practicing Thrift and Combating Wastefulness in a synchronous and effective manner in all areas of the bank's operations, under the direction of the State Bank in Decision No. 160/QĐ-NHNN dated January 30, 2024.

The program aims to propagate, disseminate and thoroughly understand the Party's policies and legal regulations on practicing thrift and combating waste. Specifically, BIDV has propagated the Law on practicing thrift and combating waste; the Action Program on practicing thrift and combating waste of the Government and the Banking sector through various forms of communication such as issuing regulatory documents, integrating into labor conference programs, business review conferences, training classes/courses, and activities at party and mass organizations.

Following the impressive achievements in 2023 in practicing thrift and combating waste, BIDV has also led, directed the development and implementation of the Thrift Practice and Combating Waste Program and reported to the State Bank according to Official Dispatch No. 1029/BIDV-TC dated February 29, 2024. This program at BIDV clearly shows (i) BIDV's action goals to synchronously implement solutions, (ii) measures to practice thrift and combat waste in all areas of operation, contributing to creating resources to serve business activities, implementing BIDV's business development strategy to 2025, associated with the focus on digital transformation.

At the same time, BIDV continues to maintain inspection and control of thrift practice and direct and indirect anti-waste, focusing on inspection of implementation and compliance with regulations at member units.

Understanding the importance of promoting and disseminating thrift and anti-waste work at BIDV, BIDV's trade union has implemented propaganda on anti-corruption work, practicing thrift and anti-waste in 2024 according to Official Dispatch No. 223/CDNHĐT&PT-TG&NC dated June 18, 2022.

Results of practicing thrift and fighting waste at BIDV

BIDV has implemented regulations related to financial and procurement regimes in a synchronous and effective manner, ensuring clarity, transparency and appropriateness in expenditures. The Bank has regularly reviewed and adjusted these regulations, with new documents issued in 2024, including:

Regulations on Construction Investment Management

Regulations on Investment, Procurement, Lease and Asset Management

Regulations on procedures for purchasing goods and services

Decentralization of authority in financial management and asset procurement activities

Documents implementing guidelines for practicing thrift and combating waste

In addition, in 2024, BIDV continues to maintain effective cost management by managing the CIR (operating cost/operating income) at 33.4%, lower than in 2023 (33.6%, remaining low compared to the norm (≤ 45) and in the context of the Bank's consolidated pre-tax profit increasing by 13.6% compared to 2023.

Operating cost/operating income

Use resources efficiently and promote transition to Net-Zero

Commitment to comply with environmental laws

At BIDV, we are deeply aware that environmental protection is not only a legal responsibility but also a social and ethical responsibility to the community. BIDV is committed to complying with current legal documents on environmental protection such as the Law on Environmental Protection 2020, Decrees and Circulars guiding the reporting of status and management of environmental monitoring data.

In the activity of providing products and services to customers

- BIDV proactively identifies and selects green credit sectors/fields on the basis of compliance with environmental laws and regulations while closely following the directions and instructions from the State Bank of Vietnam such as (i) Directive No. 03/CT-NHNN dated March 24, 2015 on promoting green credit growth and managing environmental and social risks in credit granting activities; (ii) Decision 1604/QĐ-NHNN dated August 7, 2018 on approving the Green Banking Development Project in Vietnam; (iii) Circular 17/2022/TT-NHNN guiding the implementation of environmental risk management in credit granting activities of credit institutions and foreign bank branches;...
- BIDV's green credit policy and amendments are always updated promptly, ensuring that they reflect the requirements of the law and the direction of the Vietnamese Government. In particular, BIDV has issued documents and internal regulations to provide detailed guidance on classification criteria and credit granting procedures. For investment projects that must implement environmental risk management, BIDV also provides specific assessment items to manage environmental risks in credit granting activities according to Regulation 3266/QyĐ-BIDV dated May 31, 2023, of the General Director.

In BIDV's daily business operations

Annually, BIDV signs service contracts with specialized units to periodically monitor wastewater and working environment including air quality and noise, and signs contracts to collect, transport and treat waste at workplaces in accordance with the provisions of the Law.

Furthermore, BIDV ensures compliance with all environmental protection requirements for all branches, offices and transaction points nationwide. Not only stopping at the level of legal compliance, BIDV also proactively proposes and implements many environmental protection initiatives, including applying digital transformation products, electronic offices to reduce paper and ink, and promoting the economical use of electricity and water resources for all staff. BIDV's efforts in complying with environmental laws are clearly affirmed through:

- Number of fines for non-compliance with environmental laws and regulations: None.
- Total amount of fines imposed for non-compliance with environmental laws and regulations: None.
- To ensure that all system operations are updated and comply with the latest changes in environmental protection regulations, on December 18, 2023, BIDV issued Official Letter No. 22844/BIDV-PC to disseminate to units throughout the system on updating and reviewing environmental protection regulations. Complying with information sources for dissemination and dissemination of new legal regulations at BIDV (Dissemination Official Letter of the Legal Department, Legal Newsletter, Thuvienphapluat.vn website), when new environmental legal regulations are issued or revised, relevant units at BIDV need to proactively research, propose and report to competent units on widespread implementation at BIDV in one of three forms:

Notify affiliated units in case there is no need to issue new internal guidance documents.

Issuing, announcing and disseminating new regime documents specifying the contents of legal documents.

Issue, announce and disseminate documents guiding implementation according to the roadmap in case the legal document has provisions on the implementation roadmap.

Promoting financial inclusion and community support

Approach

BIDV aims to expand access to financial services to facilitate the growth of the Vietnamese economy. We recognize that increasing the penetration of financial services is necessary to meet the growing needs of economic development. Therefore, BIDV has been implementing many strategies and initiatives to expand access to finance for individuals and businesses, especially those who are underserved by the traditional financial system.

BIDV is constantly striving to improve its contribution to the development of the Vietnamese economy. We are committed to supporting businesses in accessing capital, expanding production and improving competitiveness. BIDV also focuses on developing innovative financial products, meeting the diverse needs of customers and promoting the development of key economic sectors. By providing effective and sustainable financial solutions, BIDV makes an important contribution to promoting economic growth, creating jobs and improving the quality of life for people.

Our initiatives

S1

Promoting financial inclusion and community support

Committed to creating sustainable value for the economy

BIDV strongly affirms its participation and contribution to Vietnam's economy by creating sustainable values for stakeholders. By promoting economic efficiency, sustainable growth, creating many green and convenient service packages, constantly striving to improve customer experience through digital transformation, while maintaining an equal and healthy working environment, BIDV aims to increase the direct economic benefits created.

Total outstanding loans for all industries in 2024

15.5 % 
compared to 2023

In 2024, BIDV's credit activities will continue to have positive growth, reflected in the total outstanding loans for all economic sectors reaching VND 2,018,950 billion, increases by 15.5% compared to 2023. BIDV's outstanding credit balance focuses on production sectors, priorities and growth drivers according to the policies of the Government, the State Bank and BIDV's business development orientation, effectively contributing to meeting the capital needs for production and business of enterprises and people.

Transparency and accountability in tax compliance

With the core spirit of "rule of law", BIDV is committed to fully and promptly fulfilling its tax obligations. In 2024, BIDV will continue to maintain its position as one of the leading enterprises in terms of corporate income tax payments.

Contribute to the state budget

9,281 VND
BILLION

This is part of BIDV's continuous efforts to support the country's socio-economic development. The full implementation of tax obligations not only helps BIDV maintain its reputation and position in the market but also contributes to the stability and sustainable development of the national economy. The Bank always complies with the periodic/ad hoc reporting regime and is ready to provide information, coordinate work and when requested by State management agencies.

BIDV always considers tax obligations as an important part of its sustainable development strategy and is committed to continuing to make positive contributions to the State Budget in the coming years.

S1

Promoting financial inclusion and community support

Creating positive values for society

In 2024, BIDV actively participated in implementing BIDV's social security programs and the union's charity programs such as: gratitude, hunger eradication, poverty reduction, medical support, education, overcoming the consequences of natural disasters... with a total amount of VND 374.8 billion (from sources: BIDV's expenses, welfare funds, contributions of employees) to demonstrate social responsibility, protect the environment and contribute to building BIDV's image and brand to the community, towards the goal of sustainable development. Specifically:

- Coordinate with the government to implement programs with a total budget of more than VND 330 billion.
- Building and implementing social security activities from the Trade Union Social Fund and from mobilizing contributions from union members and employees with a total amount of nearly VND 44.8 billion.

S1

Promoting financial inclusion and community support

Creating positive values for society (continued)

For the community, BIDV continues to implement social security programs focusing on four priority areas: education, healthcare, housing for the poor and disaster recovery support with a total implementation amount of nearly VND 330 billion. BIDV's social security sponsorship programs directly impact/support development activities, improve and enhance conditions and quality of healthcare, education, support for the poor, and disaster recovery. In which:

- **Sponsoring the education sector with VND 98.3 billion:** BIDV sponsored the construction of school buildings, dozens of IT and online information rooms with nearly 200 computers for schools; Many functional classrooms, gymnasiums... Awarding thousands of scholarships to excellent students, sponsoring other facilities serving training and learning activities of educational institutions nationwide, especially in remote areas...
- **Medical sponsorship of VND 61.2 billion:** BIDV has sponsored medical equipment, ambulances, and other necessary facilities according to the needs of central and local medical facilities to serve medical examination and treatment, community health care; sponsored medical examination and treatment packages, purchased medicine, and health insurance cards for the poor, remote areas, etc.
- **Sponsoring the construction of houses for the poor with VND 79.5 billion:** BIDV has sponsored the construction of nearly 1,572 houses for the poor, supporting the poor to have a stable roof to settle down, feel secure to do business and develop the economy, contributing with the local government to take care of the lives of the poor in the locality.
- **Funding to overcome the consequences of serious natural disasters such as Typhoon Yagi,... VND 61 billion:** BIDV promptly funded localities and people to overcome difficulties and damages caused by natural disasters, quickly stabilized their lives to continue economic production activities...
- **Sponsoring other gratitude activities VND 30 billion:** Implementing the social security sponsorship program towards the islands:

The Moneyverse (Vũ trụ Đồng Tiền) x BIDV

sponsoring medical equipment for the large Truong Sa Island clinic, sponsoring tree planting for the Truong Sa Greening project, necessary equipment, giving Tet gifts... to navy soldiers and military and civilian forces on duty at 12 outpost islands of the Fatherland.

Sponsor community awareness programs

Over the years, BIDV has devoted a lot of effort and resources to accompany the education and training sector, prioritizing the implementation of knowledge sharing projects, human resource training, joining hands to realize the goal of building a young generation that understands finance, is financially independent, contributing to building a knowledge-based economy, a civilized and prosperous society. The Money verse - the first financial education program in Vietnam - has become an important platform in raising financial awareness. With the strategic support from BIDV, the program not only provides practical knowledge but also integrates sustainable development values, reflecting BIDV's strong commitment to social responsibility and ESG criteria (Environment, Society, Governance).

S1

Promoting financial inclusion and community support

Creating positive values for society (continued)

Organizing Green Activities for the Environment

BIDV organizes two annual running events, "BIDV Run - For a Green Life" and "BIDV Run - Warm Tet for the Poor." These races encourage the public and customers to contribute to social security programs and giving Tet gifts for the poor. BIDV converts the running achievements of athletes into money to implement social security programs, giving Tet gifts for the poor, and engage in environmental protection activities such as planting trees and building community cultural houses to prevent flooding.

Evaluation of the effectiveness and impact of BIDV's social security programs implemented in 2024

The social welfare programs of BIDV are implemented in accordance with the government's policy, recognized and highly evaluated by regulatory agencies, local authorities, and the public. They demonstrate BIDV's sense of responsibility towards the community and contribute to improving the physical infrastructure and enhancing the quality of life for residents in various locations.

- **To the community:** actively contribute to the overall sustainable development of society, enhance people's living standard
 - For poor localities and remote areas: support hunger eradication and poverty reduction, improve all aspects of life such as housing, education, healthcare; etc.
 - For developed regions: upgrading and modernizing equipment for schools (computers, projectors, etc.)
 - Funding to improve the quality of medical examination and treatment, community health care
- **To regulatory agencies:**
 - BIDV demonstrates its responsibility and contribution in implementing major policies of the Party and the Government, national sustainable development goals, and improving the quality of life for the people in terms of economic, cultural, and social development.
 - BIDV always responds to and accompanies programs initiated by the Fatherland Front Committee, the State Bank, the National Assembly Office, etc.
 - BIDV's contributions to the community have been recognized and highly appreciated by relevant organizations and individuals. In 2024, BIDV was awarded as **"Outstanding Enterprise for Employees 2024"** by Vietnam General Confederation of Labor.
- **For BIDV's operations:** The effective implementation of social welfare activities has brought about many positive impacts for BIDV's operations.
 - Building and promoting the community-oriented culture at BIDV, creating a voluntary and proactive spirit among employees towards community activities. At BIDV, in addition to the system-wide major programs, every year, **100% of the Head Office Departments/Branches carry out social welfare activities for the localities.**
 - Enhancing the operational efficiency of BIDV's business activities, through (i) expanding the network and retail and wholesale product and service offerings to various customer groups within the system, such as schools, hospitals, government agencies, and social organizations, and (ii) supporting public relations activities with government departments and local authorities.
 - Receiving recognition and high evaluation from media agencies, both at the central and local levels, further enhances the brand image of BIDV as a community-oriented bank, positively influencing the attitudes and behaviors of the public in choosing BIDV as their financial service provider.

Promoting financial inclusion and community support

Promoting financial inclusion

Vietnam is currently striving to achieve the goals of the National Financial Inclusion Strategy, with the aim of ensuring that all people and businesses can access and use financial products and services safely, conveniently, appropriately and at reasonable costs. BIDV, as a pioneer in the financial industry, is constantly promoting financial inclusion through specific and effective measures.

BIDV has focused on important initiatives such as:

- **Promoting comprehensive digital transformation:** BIDV focuses on developing advanced applications and technologies, helping customers easily and quickly use services, while minimizing transaction costs and improving customer satisfaction. Digital transformation not only optimizes service processes but also creates a convenient financial ecosystem for people and businesses.
- **Developing diverse products and services:** BIDV researches and deploys financial products that meet the diverse needs of customers, from basic banking services to more complex financial products, helping the community easily access and use banking and financial services. This diversity meets the needs of different customer groups, from individuals to businesses.
- **Prioritizing green credit:** BIDV focuses on developing credit products that support green economic activities, including loans for environmental protection and sustainable development projects. Thereby, the bank not only contributes to the development of the economy but also protects natural resources, contributing to the response to climate change.
- These efforts of BIDV not only help successfully implement the National Financial Inclusion Strategy but also affirm BIDV's pioneering role in promoting the sustainable development of Vietnam's economy, bringing benefits to the community and the nation.
- BIDV is committed to playing an active role in promoting economic growth associated with environmental protection and improving the quality of life of the community. In 2024, the bank deployed a climate credit line worth EUR 50 million from the French Development Agency (AFD) to finance projects to mitigate the impact of climate change, adapt to environmental conditions and promote sustainable development.
- Looking forward, BIDV wishes to continue to actively contribute to society and the community as a development partner, providing comprehensive financial services and actively investing in projects in the fields of healthcare, education and technical infrastructure, thereby helping to improve the quality of life. The Bank aims to increase capital support for those who do not have many opportunities to access credit capital such as small and medium enterprises, continuously improving core technology to improve service quality and reduce costs. The Bank demonstrates its focus on social responsibility by continuing to provide funding for social and sustainable projects, thereby wishing to build a relationship of trust and transparency with customers in particular and the community in general.

In addition, BIDV also makes an important contribution to the modernization of socio-economic infrastructure through providing credit for many large-scale projects such as:

The Nha Trang Cam Lam Expressway BOT Project

Maintaining sustainable procurement

Principles of the Bank in supplier selection

BIDV selects suppliers/contractors to ensure compliance with legal regulations, as well as compliance with the following social principles:

Compliance with the law

Suppliers must comply with local and country laws

Ethical Business and Conduct

Suppliers shall not engage in bribery, corruption, fraud or other prohibited business practices

Ensuring labor safety

Safe working environment

Have policies in place to ensure employee safety

Occupational disease policies for employee

Respect for workers and human rights

Respect for human rights and workers' rights

Ensure workers' rights

No child labor, forced labor

Ensure fair pay

The process of selecting and evaluating suppliers/contractors

Purchasing activities at BIDV are carried out in a centralized manner to ensure synchronous use, effective scale and savings in both cost and time. The regulations and procedures for purchasing goods and services at BIDV are committed to fully complying with legal regulations, while always aiming at the criteria of efficiency, rationality and savings.

During the process of working with suppliers, BIDV conducts reviews and evaluations based on the following criteria: (i) financial capacity and implementation experience, (ii) commitment to environmental protection and ensuring the quality of input materials, (iii) compliance with social principles, and (iv) meeting BIDV's contractor selection criteria.

S1

Promoting financial inclusion and community support

Promoting international trust fund activities

BIDV continues to affirm its pioneering position in mobilizing and managing international trust capital, focusing on promoting the mobilization of green capital sources to increase the proportion of green credit outstanding loans, developing a diverse ecosystem of foreign trust capital products, serving the green growth of the economy.

To date, BIDV is managing more than 260 capital sources from the Governments of Germany, Switzerland, France, Japan, Korea and major international financial organizations such as WB, AFD, ADB, KfW, NIB, EIB, JICA, EDCF with a total committed value of USD 19.8 billion equivalent to VND 482,000 billion. After 30 years of implementation, BIDV has been recognized and highly appreciated by Customers, International Financial Organizations, Ministries and sectors for its reputation and experience in managing foreign entrusted capital sources.

In 2024, BIDV will continue to maintain its leading position with a total value of successfully mobilized foreign entrusted capital of USD 264.9 million (equivalent to VND 6,500 billion) from international financial institutions and sponsors such as AFD, ADB, EDCF, EIB, KOICA.

In addition, BIDV strengthens strategic cooperation with AFD and international donors, promoting the implementation of green credit lines. In 2024, BIDV and AFD signed a Comprehensive Cooperation Agreement, expanding opportunities for BIDV to continue to effectively deploy AFD's preferential capital sources to finance

sustainable development projects, receive technical assistance to enhance capacity, improve the Bank's environmental and social risk management, and participate in international networks/organizations operating in green finance development (IDFC, FICs, SUFIP, etc.) as AFD's leading partner in the Asia-Pacific region. Affirming the commitment to promoting green finance agreed by both parties, BIDV and AFD continued to sign the CFA Credit Agreement for a Climate Credit Line worth EUR 50 million to finance projects in the fields of climate change mitigation/adaptation, green credit and sustainable development.

At the same time, BIDV organized a working session with AFD and WWF International on the project "Vietnam Industrial Sustainable Development Initiative towards the goal of bringing Net Emissions to "0" by 2050". The successful implementation of the project is the basis for BIDV and AFD to build the next Green Credit Lines. In addition, BIDV actively promotes cooperation with foreign sponsors EIB, WB, NIB, KfW, JICA to attract all NVUTNN to finance green and sustainable development sectors to BIDV.

As a key commercial bank in the Vietnamese banking system, with the largest total assets in the commercial banking system and a nationwide network of branches, a team of professional staff with extensive experience in foreign capital trust activities, BIDV is always a pioneer in implementing policies and directions of the Government and the State Bank in promoting the development of green credit and is ready to become a partner with international financial institutions to contribute to the implementation of sustainable development goals.

BIDV and AFD sign the CFA Credit Agreement for a Climate Credit Line worth EUR 50 million

BIDV and MUFG sign the Memorandum of Understanding (MoU)

S1

Promoting financial inclusion and community support

Strengthening international cooperation, promoting green finance and sustainable development

BIDV always actively expands cooperation with international financial organizations and institutions to effectively manage green capital flows, promote sustainable finance, save energy and support the energy transition process in Vietnam.

With more than 30 years of cooperation with prestigious multilateral financial institutions such as the World Bank (WB), Asian Development Bank (ADB), Japan International Cooperation Agency (JICA), Japan Bank for International Cooperation (JBIC), etc., BIDV has been implementing many important cooperation programs, contributing to promoting green economic growth and sustainable development.

- **With ADB:** BIDV and ADB continue to strengthen cooperation in implementing technical assistance packages in sustainable transformation. At the 10th Trade and Supply Chain Finance Program Awards Ceremony organized by ADB, BIDV was honored as "Bank with the best green financing transaction in 2024". In 2024, BIDV completed the Sustainable Strategy Consulting and Green Credit Project at BIDV within the framework of a technical assistance package worth USD 150,000 funded by ADB.
- **With IFC:** In April 2024, BIDV partnered with IFC to assess the ability of BIDV Tower to meet IFC Green Building Standards (EGDE). As a result, the BIDV building achieved nearly 40% more energy savings than the IFC baseline model.
- **With global financial institutions:** BIDV has established USD financing relationships with ~50 global financial institutions with an available credit limit granted to BIDV of USD 4 billion. BIDV also has leading experience and capacity in receiving and implementing financing projects from international financial institutions for projects with the purpose of environmental protection and

sustainable development. Typically, in 2024, BIDV successfully implemented the first Green Trade Refinance transaction under Import L/C with MUFG Bank on the basis of the Green Trade Finance Agreement with MUFG signed in February 2024 and successfully signed a Memorandum of Cooperation with MUFG on promoting Sustainable Finance.

BIDV always actively coordinates closely with ministries, departments and branches to access green capital sources, while attracting technical and financial support for both the bank and customers. These efforts not only affirm BIDV's pioneering position in implementing sustainable finance activities in Vietnam but also contribute to enhancing BIDV's reputation and position in the international arena.

In 2024, BIDV has cooperated with leading ESG consulting organizations such as Klinova, VNEEC, Allotrope, Mekong Strategic, Fiin Ratings, etc. and signed/supported the signing of NDAs with these partners to advise corporate customers on building KPIs/ Sustainable Performance Indicators (SPT) for BIDV's Sustainable Linked Loans.

In addition, BIDV has also signed an Information Confidentiality Agreement with Hana Securities and the Korea Development Bank (KDB) to exchange information, evaluate and implement cooperation activities in the field of sustainable finance (including capital mobilization for green, social and sustainable projects). At the same time, the bank is actively implementing the Climate Impact Fund initiative, mobilizing resources from the Green Climate Fund (GCF) to expand the scale of funding for projects with positive environmental impacts.

S2

Talent attraction and development

Approach

BIDV is proud to be one of the leading banks in Vietnam, not only because of its strong growth in business but also because of its strong commitment to the welfare and comprehensive development of its employees. We understand that human resources are the most valuable asset, a solid foundation for BIDV to continue to develop and affirm its position in the financial industry, while contributing to enhancing the bank's competitiveness. With that spirit, BIDV always strives to build a working environment that is both professional and friendly, where all employees feel respected and are rewarded for their contributions.

We are committed to providing transparent and fair compensation and benefits policies, while strictly complying with relevant laws and regulations. BIDV believes that employee satisfaction is the most important factor in building a strong and sustainable organization. To achieve this goal, we have continuously improved and developed our benefits, providing employees with a working environment that is not only challenging but also supports a long-term and prosperous career.

Our initiatives

S2

Talent attraction and development

Ensure salary and benefits for employees

Employee Benefits

BIDV always cares for and takes care of the comprehensive development of employees, fully implementing material and spiritual benefits for employees based on the level of contribution and dedication of employees to the development of BIDV, ensuring compliance with current legal regulations. BIDV commits to ensuring that employees enjoy full benefits:

• Career development opportunities, salary and bonus mechanism: 100% of BIDV leaders and staff in the entire system

- Receive regular performance reviews and opportunities for promotion and career development. Be assigned work appropriate to qualifications, abilities, and work experience.
- Salary, salary increase and full salary payment according to BIDV's regulations, in compliance with the law and competitive compared to the market.
- Participating in social insurance, health insurance, unemployment insurance and enjoying the insurance regimes according to the state's regulations; receiving benefits upon resignation and retirement.

• Welfare regimes: 100% of BIDV leaders and staff in the entire system

- Fully implement working hours and rest hours (vacation, weekend, holiday, personal leave, overtime...).
- Provide medicine cabinets and first aid kits at all work locations, participate in regular health check-ups and training sessions on occupational safety (fire prevention, accidents, etc.)
- Considered and proposed for rewards at all levels based on annual work achievements or when there are outstanding achievements.
- Participate in BIDV's mass organizations: Youth Union, Trade Union, Women's Union...
- Provided with uniforms and necessary equipment for work.
- The union organization takes care of material and spiritual life: regular medical check-ups; sightseeing, vacations, recuperation, visits when sick, mourning, happy, etc.

New recruitment rate

2.7 %
in 2024

Employee turnover rate

6.94 %
in 2024

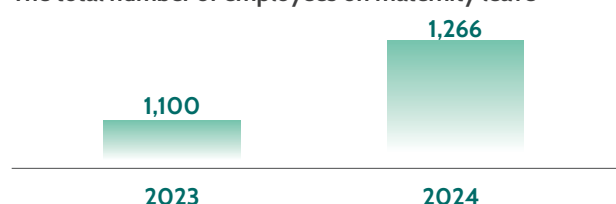

• Other benefits:

- Considered to facilitate loan support.
- Enjoy other benefits: buy shares, stocks, participate in BIDV's real estate business projects...
- Be considered for participation in training courses, surveys, seminars at home and abroad according to job requirements to improve business management ability, professional expertise, foreign languages, political theory, soft skills, etc.
- Supported by the grassroots Party organization, creating favorable conditions to strive to join the Party (if desired). When there are changes affecting the rights and benefits of employees, BIDV will notify the entire system via email, electronic office system, and the bank's internal information page. BIDV always ensures transparency in information exchange between the Board of Directors and all employees.

• Maternity leave:

- BIDV has established a maternity leave regime in compliance with the provisions of the Labor Law, applicable to all employees at BIDV, including (i) female employees during maternity period and (ii) male employees whose wives are during maternity period.
- During and after maternity leave, staff (i) still enjoy welfare benefits according to regulations, (ii) are evaluated and classified periodically based on actual working time. After the end of maternity leave, female staff continue to be given priority to reduce the number of working hours per day until the child is 1 year old.
- This demonstrates BIDV's comprehensive support and companionship for maternity staff, creating conditions for staff to get back to work after maternity leave, ensuring the same job position and title, helping employees feel secure at work.
- In 2024, the total number of employees on maternity leave was 1,266. The rate of employees returning to work after maternity leave for both male and female employees reached 100%, affirming the effectiveness of the bank's human resource support and welfare policies.

Ensure salary and benefits for employees (continued)

Collective activities, connecting workers

Promoting its representative role, BIDV Trade Union actively coordinated with the government to review and study legal regulations, and at the same time used BIDV's new financial capacity to improve welfare regimes for Union members and employees. At the same time, BIDV also conducted consultations with union members and employees, participated in amending the Collective Labor Agreement (CLA) in 2024, including adding a policy of preferential treatment for union members and employees with serious illnesses, and amending BIDV's emulation and reward regulations. At the same time, BIDV also coordinated to organize collective bargaining between representatives of the Employer and representatives of the collective of employees to organize the signing ceremony of the Collective Labor Agreement between the General Director and Chairman of BIDV Trade Union at the 2024 System-level Employee Conference on March 27, 2024. Accordingly, 100% of employees in the BIDV system have participated in the Collective Labor Agreement.

At the same time, BIDV Trade Union has made continuous efforts to ensure welfare for employees through:

- Participate in Councils for reviewing planning and appointing officials: Participate in Councils for reviewing new appointments and reappointment of officials at the Headquarters Departments/Committees and member units; Participate in perfecting the organizational model. Participate in amending regulations for planning, appointing, reappointing and managing officials holding positions at BIDV.
- Participate in and supervise the implementation of regimes and policies such as: Social insurance, health insurance, unemployment insurance, BIC-care, BIDV-care, annual leave, compensatory leave, periodic health check-ups... As a result, in 2024, BIDV always ensures salaries, income, benefits and policies for employees, maximizing the use of welfare expenses for employees; Employees are fully insured, and cases of arising insurance benefits are paid by BIC in accordance with the contract; Employees are given leave and compensatory leave, some units have organized health check-ups for employees... With the effort to build a civilized working environment, bringing the best benefits to employees, in 2024 BIDV was honored with the awards "Best Workplace in Vietnam 2024", "Best Workplace in Asia 2024" and "The Enterprise with the Best Employee Care in 2024".
- Develop and issue a Handbook of policies and regimes related to employees in the BIDV system; Disseminate information about the handbook to employees and union officials. Conduct surveys and measure the satisfaction of BIDV employees with BIDV's policies and regimes.
- Visiting and subsidizing 839 union members and employees and their relatives, retired cadres in difficult circumstances, suffering from serious illnesses, sickness, and accidents, from the BIDV Trade Union Bank's charity fund with a total amount of more than VND 4.1 billion.
- BIDV Trade Union guides Trade Union branches to organize activities to care for union members and employees on the occasion of the Lunar New Year of Giap Thin, and to pay visits to union members and employees on the occasion of the Lunar New Year of Giap Thin with a total amount of nearly VND 15 billion from the union's operating budget.
- On the occasion of the 77th anniversary of War Invalids and Martyrs Day, the Trade Union organized the program "Returning to the source" in Ha Giang and presented gifts to BIDV officers who are war invalids and martyrs' relatives with a total amount of VND 288 million.
- Guide the Trade Union to reward children of BIDV employees according to BIDV's study encouragement regulations. Propose the Chairman of the Board of Directors and General Director of BIDV to reward 1,427 cases with a total amount of more than VND 3.2 billion to children of BIDV employees with excellent achievements in studying and training.
- The Trade Unions have chosen appropriate forms to organize a number of recreational activities for children of employees on June 1st, Mid-Autumn Festival, and to reward children with good academic achievements...
- Many trade unions coordinate with professionals to organize or facilitate domestic and foreign tours for union members and employees; maintain and organize cultural and sports activities to create playgrounds for union members and employees to exchange, exercise, improve their spiritual life and contribute to increasing productivity and labor quality.

Talent attraction and development

Building a safe working environment

Labor safety

In BIDV, Occupational Safety and Health is always considered a top priority in all banking activities. We clearly recognize that a safe and healthy working environment is not only a fundamental factor to maximize the capacity of the human resources but also contributes significantly to the sustainable development of the organization. With a strong commitment to implementing policies and regulations on occupational safety, BIDV always strives to build a safe working environment, protect the health and legitimate rights of employees.

- **Committed to complying with international laws and standards**

We always strictly comply with legal regulations related to labor safety, including full implementation of the Law on Labor Safety and Hygiene 2015 (No. 84/2015/QH13). At the same time, BIDV applies international standards on labor safety, ensuring that it always updates and complies with the latest regulations from the Ministry of Health and competent authorities. This policy aims to protect the health and safety of all employees in all situations and circumstances.

- **System occupational safety management**

BIDV has established and maintained an effective occupational safety management system with detailed and comprehensive occupational safety procedures and guidelines. A periodic monitoring and evaluation system is established to promptly detect and handle potential hazards in the workplace. In addition, internal regulations on occupational safety and health are also issued and strictly enforced to create a safe and professional working environment.

- **Equipment Fire protection and prevention**

To ensure maximum safety for workers, BIDV provides full personal protective equipment and installs advanced safety systems. Currently, BIDV has implemented a prevention regime and provided labor protection equipment for a number of subjects at risk of occupational diseases according to Circulars of the Ministry of Health, and at the same time has a regime of compensation for occupational accidents and diseases for employees who are infected according to the Regulation on financial revenue and expenditure regime No. 8388/QyĐ-BIDV dated December 28, 2022.

All units in the system are fully equipped with first aid medical equipment, and we conduct regular inspections to upgrade and maintain this equipment, ensuring effectiveness and readiness to respond in all situations.

- **Training and development of knowledge on occupational safety**

We attach great importance to raising awareness and skills of occupational safety for our employees through intensive training courses. Training programs include fire prevention (organized at least once a year), emergency response and first aid training, as well as occupational safety and health training. Seminars and experience sharing sessions are also held periodically to update the latest knowledge on occupational safety and improve employees' emergency handling skills.

- **Ensure a safe working environment**

BIDV always focuses on protecting the health of employees by ensuring that the workplace has an airy and well-lit space. We regularly check occupational safety and hygiene factors, fire prevention, and implement measures to eradicate rats and harmful insects. Avoid noise and other factors that are harmful to the health and work of employees during working hours. Factors that negatively affect the health and work efficiency of employees, such as noise and other harmful factors, are also strictly controlled.

The Office Department at the Head Office and the Administrative Department at the Branches are responsible for receiving and promptly handling emergency cases related to work accidents and employee health.

Building a safe working environment (continued)

Employee healthcares

Protecting the health of employees is protecting human resources, contributing to the sustainable development of the enterprise. Accordingly, BIDV pays great attention to implementing employee health care programs with many diverse forms:

- 100% of employees in the entire BIDV system are given annual health check-ups, helping to detect health problems early for timely monitoring and treatment. Employee health information is kept confidential and BIDV does not use health check-up results in decisions related to human resources activities.
- BIDV applies health insurance and life insurance programs to provide comprehensive health care for employees, and at the same time deploys preferential health insurance packages for employees' relatives.
- Health promotion activities of BIDV Trade Union and Youth Union: (i) BIDVRUN - Warm Tet for the poor, (ii) BIDVRUN- For Green Life; (iii) Annual vacation program at each unit, (iv) Annual medical examination and treatment program and meeting with BIDV retired staff, etc.
- At the headquarters of units in the BIDV system, there are gyms for staff to exercise after working hours.

S2

Human resource development and management

Sustainable recruitment policy

Commitment to fair and diverse recruitment: BIDV always promotes fairness and transparency in the recruitment process, ensuring that employment opportunities are not affected by gender, age, nationality or disability, contributing to building a diverse and inclusive working environment.

Prioritizing local resources: BIDV is interested in recruiting personnel from the local community at its branches, contributing to job creation, improving the quality of life and developing the regional economy.

Focus on sustainable recruitment: BIDV is interested in recruiting personnel with sustainable thinking, to promote a corporate culture associated with environmental and social responsibility.

Aligning recruitment with sustainable core values: Each recruitment decision is considered based on its alignment with BIDV's core values of sustainable development, ensuring that selected candidates bring long-term value to the organization and society.

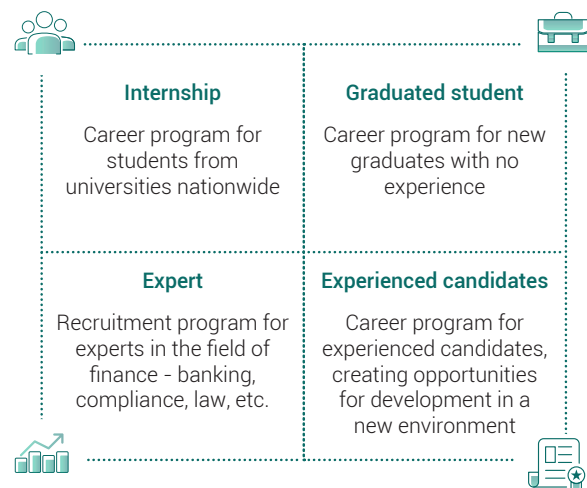

Attracting talent

To meet the increasing demands of business operations and sustainable development, BIDV always focuses on attracting excellent and highly qualified talents from all fields. The Bank is committed to strictly complying with labor regulations, including a commitment not to employ minors. In the past five years (2020 - 2024), BIDV has not recorded any violations related to the use of minors, affirming the Bank's commitment to protecting the rights and welfare of employees.

To serve the goal of business development and network expansion,

BIDV has implemented many flexible and creative recruitment programs, helping to attract high-quality candidates from all over. The recruitment process at BIDV is always carried out professionally, transparently and fairly, ensuring that each candidate has the opportunity to maximize their abilities.

Diverse Recruitment Programs include:

Successfully attracting high-quality candidates through recruitment programs helps BIDV not only build a positive image in the community and partners but also enhance the bank's brand in the market. The selected candidates all meet the standards of capacity and qualifications, contributing to improving the quality of human resources and helping the bank effectively implement business and development plans.

Continuous training and development

BIDV always focuses on and promotes human resource training and development to effectively contribute to BIDV's business activities while providing comprehensive development opportunities for employees.

BIDV continues to implement the Training Framework by position title to systematically improve professional capacity and soft skills for staff from Leadership to employees. Notables are the

talent development programs including Leadership/Leadership Planning at all levels, especially potential BL30 (Leader in their 30s) candidates and experts in the fields of Finance and Banking. The content is diverse from: leadership trends and skills, skills in the digital age,... This is also the year BIDV officially implemented training for the entire company on Agile working methods from leaders to employees to improve work efficiency. Basic and in-depth training programs on ESG knowledge are also enhanced for

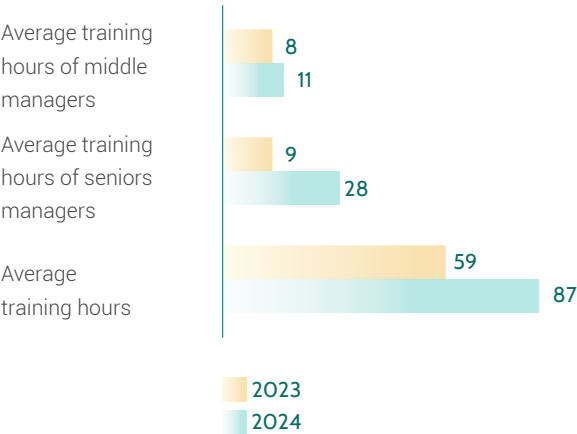

S2

Talent attraction and development

Human resource development and management (continued)

core staff at the Head Office.

• **Number of classes and students trained**

In 2024, BIDV's training activities will continue to be implemented in line with the approved training plan, ensuring that they basically meet the requirements of units throughout the system with 531 classes in 208 courses for 88,068 trainees (reaching 129% of the plan for the number of classes and 130% of the plan for the number of trainees). Of which, 384 classes will be in the form of concentrated classes, 143 online classes and four combined classes of concentrated and online classes. Compared to the same period last year, the number of classes will increase by 5% but the number of trainees will decrease by 44% due to the increased implementation of concentrated training on material topics. The average number of training hours per BIDV staff in 2024 will be 59 hours.

• **Training form**

ONLINE

Level 2 and 3 E-learning methods – utilizing new technologies (simulation, gamification) with vivid sound, images and video illustrations

OFFLINE

Organize centralized training workshops to share experiences by cluster/region/branch, creating chance to exchange knowledge among bank officials

BIDV constantly innovates and applies modern training methods to improve the quality and effectiveness of learning for its staff. In the context of the digital age and the continuous development of technology, BIDV has actively deployed online training methods (E-learning) with the most advanced technology, creating a flexible and convenient learning environment. This online training method has become the main method in the training program, with levels 2 and 3 applying simulation technology and gamifying learning content, combined with vivid audio, images and video illustrations. This helps improve the ability to absorb knowledge, while creating an interactive learning environment between students and lecturers.

In particular, the integration of artificial intelligence (AI) into online lectures has helped improve the effectiveness of personalized learning, helping students absorb knowledge more quickly and easily. Not only stopping at online training, BIDV also focuses on developing direct training through concentrated classes and experience sharing workshops at clusters, regions, and branches. These sessions not only help students exchange and learn from experiences of colleagues and lecturers but also create opportunities to update new knowledge and discuss professional issues, thereby creating a foundation for long-term career development.

To manage training scientifically and effectively, BIDV has deployed a cloud-based learning management system (LMS), replacing the old system. The new LMS is not only modern but also optimizes the management process and tracks the learning progress of each student. The application of the cloud platform has helped BIDV save resources, increase accessibility and improve the effectiveness of training. These flexible and convenient learning support tools help students study anytime, anywhere, providing an optimal learning experience.

By applying diverse and modern training methods, BIDV not only improves training quality but also ensures sustainable development in the bank's operations. Online learning helps save costs, reduce time and travel costs for students, and at the same time improve training efficiency. All these efforts are aimed at building a team of professional, dynamic, creative employees who are always ready to face future challenges.

S2

Talent attraction and development

Human resource development and management (continued)

• Diverse training program portfolio

BIDV always clearly understands that high-quality human resources are the key factor to ensure the success and sustainable development of the bank. Therefore, we always attach importance to training and developing human resources, ensuring that all staff have the opportunity to learn and improve their professional qualifications and skills.

- In 2024, BIDV will continue to prioritize training and developing technological capacity for all groups of people from senior leaders to specialists, contributing to exploring thinking and forming a culture of digital transformation that spreads throughout the system; especially focusing on training and developing the Information Technology and Digital Banking team - the core force in the process of comprehensive digital transformation of the bank;
- At the same time, BIDV has strengthened training for staff of the Retail Banking and Wholesale Banking Divisions to effectively implement projects to improve service quality such as: "Outstanding customer experience", affluent customer service, etc. and build new and continuously improve key training programs for BIDV leaders at all levels (Management leaders; Trainee directors; incumbent directors/deputy directors, etc.); new staff to adapt to changes in the domestic and international macroeconomic situation.
- The content of BIDV training courses is designed to improve the comprehensive capacity of students in terms of (i) professional knowledge and skills as well as (ii) soft skills in the process of working and communicating with customers, (iii) leadership skills. Legal regulations and good practices, advanced in the region and the world are continuously updated to be appropriately integrated into the content of the courses.
- In addition, in 2024, BIDV will also research and develop many new training topics in line with general market trends such as green credit, green banking, sustainable development and ESG practices, etc

• Human resource development plan

BIDV always identifies human resource development as one of the important strategic factors, contributing to the sustainability and long-term success of the bank. To achieve this goal, BIDV has developed and issued the Regulations on Titles and Career Development, to help employees orient and develop their careers in a professional working environment, full of challenges and opportunities.

- Each employee at BIDV will determine their own personal career development path, based on their interests, passions and actual capabilities. This process includes discussion and agreement with the direct manager to ensure that each employee's career development path is consistent with their personal development goals and the bank's strategic goals. BIDV is committed to creating conditions for employees to develop their careers comprehensively and professionally, through training programs, learning and other career development opportunities.
- BIDV creates an environment of equality and respect for diversity in career development opportunities. We encourage and support employees to improve their professional qualifications through participation in internal and external training courses, long-term learning programs, as well as opportunities to develop leadership and management skills. In addition, BIDV also focuses on building a team of human resources capable of meeting future business development needs, while promoting the sustainable development of the bank.
- Through the implementation of systematic and strategic human resource development programs, BIDV not only enhances the capacity of each individual but also creates a high-quality workforce, always ready to face new challenges and contributes significantly to the sustainable development of the bank. The career development process at BIDV not only brings practical benefits to each individual but also contributes to the overall success of the organization, creating a solid foundation for future development.

Human resource development and management (continued)

Performance management and continuous feedback

• Performance appraisal

With the motto that human resources are the core resource and competitive value of the enterprise, BIDV determines that the assessment and development of human resource system is always the key issue towards sustainable development.

- To obtain the most complete and comprehensive human resource assessment results, BIDV has developed and implemented the Staff Assessment Regulations and a KPIs system with specific quantified assessment criteria according to four aspects:

Financial	Customers
Evaluation is based on financial performance results and contribution to the bank's profit targets.	Assess customer satisfaction and employee contribution to building and maintaining long-term customer relationships.
Process	Learning and Development
Review of workflow optimization, process improvement and ensuring compliance with quality standards.	Assess employees' ability to learn, innovate and improve their personal skills, while encouraging sustainable human resource development.
- This set of KPIs is flexibly adjusted to each specific job position and is suitable for the development strategy of each unit in the bank.
- Evaluation is not only a tool for BIDV to monitor work performance, but also an important basis for making decisions on reviewing, rewarding, appointing or developing human resources systems, and proposing appropriate plans.
- Performance appraisal results help BIDV develop plans to improve and enhance work efficiency, while developing a fair and transparent working environment. All leaders and staff in the BIDV system must participate in the periodic performance appraisal process, which takes place quarterly and annually. This periodic appraisal ensures that each employee receives feedback on their work performance, while also motivating them to continue to improve and develop themselves.
- Through a rigorous and comprehensive assessment system, BIDV can quickly identify the strengths and areas for improvement of each individual. This helps the bank make necessary adjustments and provide timely support to employees, thereby improving productivity and work quality, ensuring the sustainable development of the organization.

S2

Talent attraction and development

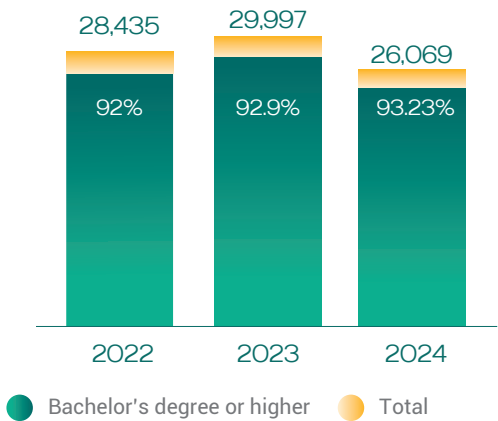

Respect for diversity and equality

Diversity in the workforce

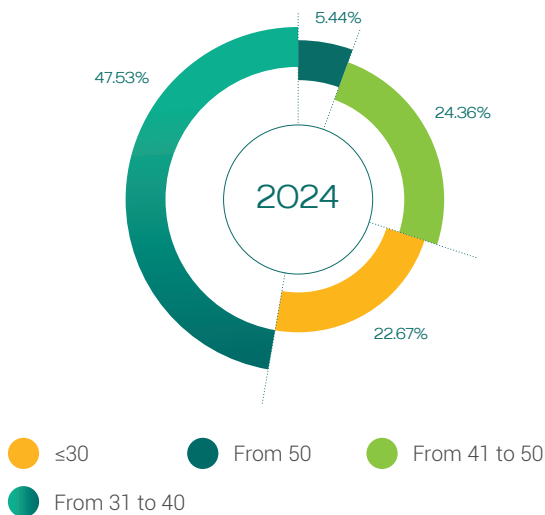

BIDV recruits individuals with diverse backgrounds, ages, genders, cultures, religions, years of experience and skills to build a diverse workforce.

As of December 31, 2024, BIDV continues to maintain a strong human resource with 26,069 employees, ensuring to meet the bank's operational and development requirements. Over the past year, BIDV continued to make adjustments in its human resource structure to improve operational efficiency, optimize resources and adapt to the development trend of the finance - banking sector.

Empower women

BIDV commits to not having any gender discrimination in all policies, activities, and salary and bonus regimes of the bank. Female staff at BIDV are always treated equally and fairly as male staff.

BIDV's labor regulations have provided for severe disciplinary measures against acts of violence against female employees. Up to now, BIDV has not had any cases of violence against female staff.

- BIDV always attaches importance to promoting the training, arrangement, use and promotion of female staff at all levels based on the general development orientation and labor needs of the Bank. The proportion of women participating in the leadership apparatus at all levels accounts for about 55.6% in 2024, the number of female staff appointed to higher positions accounts for about 50% of the total number of newly appointed staff in the year.
- BIDV always conducts open and transparent recruitment, creating conditions for male and female employees to have equal opportunities to work. In 2024, the number of female employees recruited to BIDV accounts for about 48.26% of the total newly recruited employees, the rate of female employees participating in training and advanced training courses is 62.6%.
- Policy on treatment and care for female staff: BIDV always cares for female employees through support such as (i) maternity allowance, (ii) gifts on October 20 and March 8, (iii) periodic health check-ups for female staff with higher costs than male staff, (iv) in addition to the periodic health check-up, female staff are also given one more health check-up per year (such as occupational disease, chronic disease or gynecological disease); (v) arranging a lactation room for female staff who have just given birth, etc.
- BIDV does not pay salaries and bonuses based on gender. The income-related policies for male and female employees in the same position and title are the same.

Building a culture of respect, equity and inclusion

At BIDV, labor policies are fully implemented to ensure compliance with Vietnamese laws, including the Regulations on Human Rights under the 2013 Constitution, the Labor Law and Business Conduct, and other relevant laws. BIDV is always assessed as always complying with the provisions of the Labor Law. BIDV is also recognized as a unit with a good working environment. Employees at BIDV enjoy policies, benefits, salary and bonus mechanisms, opportunities for career advancement, personal development, respect for human rights and training on human rights. 100% of employees in the BIDV system participate in the Collective Labor Agreement.

- Fair and equal working environment
 - BIDV's treatment of talents is equal, without distinction of gender, age, religion, race, ethnicity, cultural background and language. In BIDV's working environment, there is no discrimination, no forced labor, no use of underage labor and no other problems that violate human rights and Labor Law.
 - Following the program and direction of the Vietnam Banking Trade Union, BIDV has also issued documents to disseminate and propagate information and knowledge to workers about human rights such as gender equality, forced labor, child labor, and discrimination.
- Listening to workers
 - Employee satisfaction survey: BIDV always cares about and listens to employees' opinions about working environment, workload, remuneration and employee benefits through annual satisfaction survey.
 - In addition to regular surveys, BIDV maintains many other forms of collecting staff opinions through annual employee conferences, system-wide union conferences, internal social networks, etc. with public feedback from units at the Head Office.

All survey opinions and contributions from employees are encouraged, respected and used as a basis by BIDV to continue to improve the system, mechanisms and policies, thereby increasing the level of satisfaction and happiness of employees as well as improving work efficiency, towards sustainable development.

In 2024, BIDV has been awarded the prestigious UN Women 2024 Asia-Pacific WEPs Award in the Innovative Financing category, becoming the first Vietnamese bank to receive this recognition.

S2

Talent attraction and development

Respect for diversity and equality (continued)

Complaint mechanism to ensure workers' rights

BIDV has issued Regulations on Handling Complaints and Denunciations in the BIDV system; established a channel to receive anonymous complaints via the Customer Care Center/email/hotline.

Accordingly, in the process of handling complaints and denunciations from officials, the handler commits to and is responsible for protecting the confidentiality of the whistleblower's personal information, applying necessary protective measures according to authority or recommending competent authorities to apply protective measures for the whistleblower. This is also the content that demonstrates the Core Value of "Comprehensive Control - Multidimensional Monitoring" of Risk Control Culture at BIDV with the content "Leaders at all levels commit to protecting the environment for reflection, detection and ensuring safety for the detector."

Human Resources related awards in 2024

In 2024, BIDV has achieved many prestigious and prestigious awards, which are clear evidence of the bank's tireless efforts in bringing the best values and benefits to employees. Specifically, BIDV was honored to be named the Best Workplace in Asia in 2024, and received the title of the Best Employee Care Enterprise in 2024 by HR Asia Magazine, and was honored as "Outstanding Enterprise for Employees 2024" within the framework of the program of the Vietnam General Confederation of Labor. These awards are not only a recognition of BIDV's outstanding achievements in building an ideal working environment, but also a strong affirmation of the bank's commitment to human values and social responsibility.

2025 Orientations

In the coming period, BIDV will continue to implement synchronous, effective and in-depth solutions to improve the quality of human resources, meeting the requirements of comprehensive transformation, associated with BIDV's human resource development strategy for the period 2021-2025. BIDV will implement appropriate policies of care, encouragement and motivation for its staff, creating trust and motivation through solutions including:

Continue to professionally implement recruitment work, promptly meet the labor needs of member units. Improve the quality of recruitment work through comprehensive, effective, and scientific solutions.

Actively and proactively discover and supplement new factors to contribute to forming a generation of young leaders with capacity, good qualities, development prospects... creating a source of long-term successor cadres, for the overall development of the system.

Prioritize the training and development of experts, technology staff, and management leaders; Innovate and enhance training programs to improve the qualifications and skills of all employees in the system, key training programs to meet job requirements in the context of transformation, towards a large - strong - green BIDV; in particular, organize and implement training and development programs associated with the system's planned source of leadership and management staff.

Continue to maintain, research and implement flexible working policies for employees, and add new welfare regimes to take care of the health of staff and their relatives.

Research new salary policy and mechanism along with innovation in staff evaluation to improve work performance, optimize organizational resources, and increase labor productivity.

Understanding customers

BIDV's principle of understanding customers

In addition to traditional support channels, BIDV has deployed AI applications in customer care by developing multi-platform AI Chatbot to support customers in real time 24/7, shorten processing time, improve capacity and efficiency of customer support.

With the mission of bringing the best benefits and convenience to customers, BIDV builds a comprehensive after-sales customer care policy, focusing on the following key factors:

- **Flexible, personalized and proactive multi-channel support:** BIDV provides customer support services on a variety of channels, including call centers, mobile applications, websites and popular social networking platforms (Facebook, Zalo, Tiktok). The bank proactively analyzes data to personalize products and services provided to customers, anticipate and promptly resolve difficulties, and smooth the customer experience journey.

- **Building a specific customer care policy:** In order to create a personalized experience for customers, BIDV separates separate support hotlines and trains specialized consultants to respond to customer requests more quickly. In addition to the hotline for individual customers, BIDV has built a hotline for high-end customers, a hotline for corporate customers and a hotline for institutional customers.
- **Optimizing processes, expanding support scope:** BIDV constantly improves processes, expands support scope and continuously improves service quality at every touch point.
- **Listening and continuous improvement:** In addition to 24/7 customer support channels, BIDV proactively contacts customers to resolve difficulties and problems that arise during the use of products and services, making the experience with BIDV more seamless. At the same time, BIDV continuously measures customer satisfaction at all touch points (transaction counters, voice channels, email, chat, mobile apps, social networks, etc.) through automated channels (IVR, Voice Bot, Chatbot, Zalo ZNS messages). All customer opinions and feedback will be listened to and received by BIDV, thereby promptly improving service quality to enhance customer experience.

In 2024, BIDV has synchronously deployed many solutions to improve customer experience, recording impressive results:

- **Proactive and timely care:** BIDV proactively analyzes data, identifies broken points in the customer journey and enhances proactive customer care campaigns, promptly resolving difficulties and problems before customers realize it. In particular, the Bank focuses on customers using Smart banking digital banking services with the number of customers calling out increasing 2.7 times in 2023, contributing to smoothing the customer experience with BIDV.
- **Smart technology application:** BIDV effectively applies AI Chatbot/Voice Bot to handle maximum customer support and care needs, improving customer support capacity by 2 times compared to 2023. In addition, the Bank deploys automation solutions/tools to improve customer experience (automatic authentication via Smart banking, AI automatic call quality management, Zalo messages for post-call care, Gen AI Search to support TVVs to quickly look up information)

S3

Fair transactions and exceptional customer experiences

Understanding customers (continued)

- Process improvement:** BIDV expanded the scope of direct support via the call center with fifty new customer care processes, while expanding the product portfolio, including credit products on digital channels, aiming to meet the maximum demand for products and services of customers.
- Training quality staff:** BIDV innovates training activities with many diverse forms (seminars, thematic activities, clubs), enhances training of customer care staff with nearly 100 courses on skills, specialized expertise and service quality thinking. With these efforts, BIDV not only wishes to improve service quality but also build a team of professional, dedicated and always ready to meet all customer needs. This is the key factor that helps BIDV maintain and develop its position in the banking and financial market.
- Experience measurement and quick response:** Innovate customer experience measurement on all counter and Contact Center channels with continuous frequency, while implementing a quick response mechanism, promptly handling unsatisfactory feedback and converting it into positive experiences. The average satisfaction score with call center services reached 9.06/10, and the NPS index - showing the level of willingness to recommend BIDV - increased to 80%, which is clear evidence that BIDV's efforts have been recognized by customers. In 2024, BIDV was awarded the Platinum award in the category of "Excellent Customer Experience" by the Asia-Pacific Contact Center Association and the Gold award in the categories of "Best Customer Experience" and "Best Social Network Service Provider" by the Singapore Contact Center Association. These prestigious awards affirm BIDV's commitment to constantly innovate and improve service quality to deliver outstanding customer experiences and meet customers' ever-increasing expectations.

In 2025, BIDV aims to comprehensively transform the customer experience, providing seamless, personalized and more convenient services at every touchpoint by deploying a new generation Contact Center system, integrating multiple channels on a single platform, synchronized with the core banking system, helping to connect data smoothly and improve service capacity. The new system will apply AI/Gen AI and automation, support comprehensive customer identification, quick request processing and personalized interactions, bringing a more flexible service experience. At the same time, BIDV will upgrade the quality management system, integrate AI to monitor and analyze customer care/sales consulting calls, proactively identify and promptly resolve customer difficulties. Feedback data is exploited in depth to optimize the proactive customer care process, implement initiatives to improve product and service quality and improve the overall experience. In addition, BIDV focuses on improving the capacity of its consultants, training them towards customer service experts, not only meeting requirements but also providing advice, creating added value and building sustainable relationships with customers.

Support and enhance customer experience

Enhancing the Quality of Customer Service Personnel

BIDV places a strong emphasis on training and developing its human resources as a key component of its sustainable development strategy. This approach ensures that every employee is equipped with the necessary skills and knowledge to meet the increasing demands of customers.

The Bank has implemented a wide range of specialized training programs, covering both soft skills—such as communication and time management—and professional knowledge in finance, banking, and technology. These programs not only improve employees' technical expertise but also encourage their holistic development, fostering a dynamic and innovative working environment.

In addition, BIDV actively promotes a culture of continuous learning across the organization. Employees are encouraged to participate in online courses, seminars, and international training programs to stay abreast of the latest developments and apply new knowledge in their daily work. This approach enhances operational efficiency while motivating staff to grow and advance in their careers.

Through these efforts, BIDV aims not only to improve service quality but also to build a professional, dedicated workforce that is always ready to meet the diverse needs of its customers. This is a key factor in maintaining and strengthening BIDV's position in the financial and banking market.

Furthermore, BIDV has accelerated the deployment of fully automated online lending products via digital channels, with a customer-centric approach that enhances customer experience and contributes to sustainable development.

Enhancing Credit Quality

• Large-Scale Credit Programs

In 2024, BIDV implemented seven credit packages across its entire network with a total value of VND 780 trillion, along with four region-specific packages tailored to the Central Highlands, Mekong Delta, and North Central regions, totaling VND 63 trillion. These packages were designed to meet a wide range of customer needs—from business production to personal consumption—offering competitive lending interest rates from 4% per annum for short-term loans and 5.2% per annum for medium- and long-term loans. BIDV has proactively and regularly adjusted lending rates downward in accordance with directives from the State Bank of Vietnam (a reduction of approximately 1–1.5 percentage points compared to the beginning of the year). These adjustments support the local population and enhance the competitiveness of BIDV branches by offering flexible and competitive lending products tailored to customer demand, thereby ensuring timely capital for production, business, and consumption, and contributing to sustainable economic development.

• Preferential Credit for Key Sectors

BIDV has developed dedicated credit packages for customers working in specific sectors such as healthcare (e.g., Bach Mai Hospital) and education, offering preferential terms as part of the Bank's commitment to social responsibility.

• Sustainable Development Credit

In the agricultural and rural sectors, BIDV has allocated a dedicated medium- and long-term credit package of VND 20 trillion for regions such as the Central Highlands and Mekong Delta. These funds support replanting long-life crops and restructuring to higher-value agriculture. Additionally, BIDV has launched a VND 10 trillion credit package for green production and business activities, supporting individuals engaged in high-tech agriculture that meets quality standards such as VietGAP, GlobalGAP, and OCOP—reinforcing the Bank's goal of promoting sustainable credit growth.

• Digitalization of Credit Products

BIDV has rolled out both semi-automated and fully automated online loan products via BIDV Home 3.0, RLOS, and SmartBanking platforms. These digital solutions reduce operational time and customer costs by up to 50% compared to traditional in-branch services, improve labor productivity, shorten credit appraisal and approval time, and significantly enhance customer experience—allowing 24/7 online transactions.

S3

Fair transactions and exceptional customer experiences

Support and enhance customer experience (continued)

Supporting Individual Customers

• Customer Support Policies

BIDV has implemented loan programs for social and low-income housing to support citizens' housing needs. Notably, BIDV launched a VND 50 trillion support package for individual customers affected by Storm No. 3, helping people stabilize their lives and recover their production and business activities after the disaster.

BIDV is a pioneer in cooperating with the Ministry of Public Security and the State Bank of Vietnam to implement National Project 06 and Plan 01. Through this cooperation, BIDV has contributed to several key initiatives since 2021, such as:

- Piloting the use of chip-based citizen ID for transactions via eZone and CRM systems
- Using chip-based CCCD data to enable account opening and biometric collection, and to cleanse customer data
- Being one of the first four banks to link bank accounts with VNeID to receive social welfare payments, enhancing public access to government support programs
- Coordinating emergency relief programs for flood-affected communities via the VNeID platform
- Launching charitable campaigns and developing tailored credit policies for customers in disaster-prone areas
- Utilizing national population data to support credit scoring and lending decisions

• Sharing Financial Management Tips via Media Platforms

As part of its financial literacy initiative, BIDV has prioritized sharing practical financial tips through official media and social media platforms including TikTok, Facebook, YouTube, and Instagram.

On these platforms, BIDV regularly publishes short videos, articles, and infographics on popular financial topics such as budgeting, saving, investing, and understanding banking products. These materials are designed to be engaging, easy to understand, and relatable to daily life, enabling the public to access and apply them with ease.

On TikTok, BIDV creates concise and creative videos featuring useful financial tips delivered in a humorous and engaging style. On Facebook and Instagram, the Bank shares more detailed posts supported by illustrations and infographics that clearly explain financial concepts. On YouTube, BIDV uploads comprehensive video tutorials that provide in-depth explanations of banking products and personal finance strategies.

In addition, BIDV hosts livestreams, online seminars, and free financial advisory programs via social media platforms. These events offer the public opportunities to interact directly with financial experts, ask questions, and participate in a knowledge-sharing community focused on financial education.

Fair transactions and exceptional customer experiences

Support and enhance customer experience (continued)

Supporting Corporate Customers

In 2024, BIDV launched multiple promotional campaigns for corporate clients, including Trade Booming, SME Champion, and Guarantee Success, with the aim of facilitating access to digital financial services, optimizing costs, and enhancing business competitiveness:

- **Comprehensive Development of the Digital Ecosystem**

In 2024, BIDV pioneered the implementation of the BIDV Open API system—an open banking ecosystem that enables the integration of banking services into clients' and partners' applications, software, and digital platforms. With BIDV Open API, banking services can be seamlessly embedded into digital solutions, creating innovative financial offerings and enhancing the customer experience in shopping, payments, business operations, and digital financial management.

BIDV is currently the leading provider of API solutions in the market, offering over 200 APIs, including 15 public API packages (more than 130 APIs) and 5 customized API packages. The number of APIs continues to grow, enabling BIDV to deliver diverse and tailored financial solutions. In 2024, BIDV Open API recorded remarkable achievements, with nearly 260,000 test API calls, close to 1,000 trial accounts, 165 partner integration registrations, 55 partnership

agreements signed, and the acquisition of over 3,000 corporate customers through partner channels.

Optimizing Financial Costs

Preferential interest rates and transaction fee incentives enable enterprises to manage cash flows effectively.

Supporting Trade and Export-Import Activities

Trade finance solutions facilitate market expansion for businesses.

Enhancing Access to Capital

BIDV offers preferential credit packages to support the growth of small and medium-sized enterprises (SMEs).

Ensuring Transaction Security

Guarantee solutions help enterprises strengthen their credibility and mitigate financial risks.

Additionally, BIDV places importance on organizing working sessions with corporate clients to understand their specific needs and to develop suitable digital products that optimize operations and improve productivity.

- **Launch of a Dedicated Corporate Customer Hotline**

In December 2023, BIDV officially launched a dedicated hotline for corporate customer support, operated through the Bank's Central Contact Center. This initiative not only ensures high-quality customer service but also allows BIDV to promptly and effectively

respond to the needs of corporate clients. As a result, the number of support calls from corporate customers through the new hotline increased fourfold compared to 2022.

S3

Fair transactions and exceptional customer experiences

Support and enhance customer experience (continued)

• Focus on Enhancing the Quality of Product and Service Delivery for Corporate Clients

BIDV has partnered with an international service provider to conduct a customer satisfaction survey targeting corporate clients, with the aim of objectively and comprehensively assessing the quality of product and service delivery. The insights derived are used to continuously improve service quality across five key dimensions: processes, technology, human resources, pricing, and product/service content.

• Promoting Enterprise Digitalization

Aiming to become the leading digital banking platform in Vietnam, BIDV offers the **BIDV iBank** electronic banking service, which provides a comprehensive digital ecosystem tailored to the needs of a broad range of organizational clients—from small enterprises and SMEs to large corporations and conglomerates. BIDV continuously upgrades and maintains its digital banking platform to enhance customer experience.

In particular, in 2024, **BIDV iBank** was enhanced with a **Chatbot** feature powered by **AI technology**, offering real-time, 24/7 support to customers using the digital banking system, thereby optimizing user experience.

Furthermore, BIDV is actively researching and implementing new digital initiatives. Currently, the Bank is deploying two strategic IT projects: the development of a new electronic banking system for institutional clients, and the creation of a **supply chain finance application**. These initiatives reflect BIDV's strong commitment to digital transformation and its ongoing efforts to enhance service quality and customer experience.

The Bank has also implemented programs supporting businesses in transitioning from traditional to digital platforms, thereby accelerating transaction processing, improving accuracy, and increasing automation.

• Supporting Small and Medium Enterprises (SMEs)

BIDV identifies SMEs as a key customer segment in its business strategy and has prioritized resources to support and create optimal conditions for their growth. With suitable policies and dedicated efforts, BIDV's SME banking operations have achieved notable results, including maintaining its leading position as the No.1 SME Bank in Vietnam, with the largest SME client base and outstanding SME loan portfolio in the market.

To streamline processes, reduce transaction times, and expand capital access channels for SMEs, in 2024 BIDV partnered with MISA Joint Stock Company to launch the product "Online Unsecured Overdraft Loan" on the MISA Lending platform. This product reflects the joint effort of BIDV and MISA in advancing digital financial solutions to enhance access to capital and optimize the experience and utilities offered to SMEs as they scale their business operations.

Recognizing the importance of SME development, BIDV also launched **BIDV SMEasy**, a digital platform designed to support SMEs with integrated financial solutions, a digital hub, training programs, and operational tools to facilitate business management and growth.

BIDV is currently a **strategic partner** of the **Enterprise Development Agency (Ministry of Planning and Investment)**, the **Vietnam Association of Small and Medium Enterprises**, the **Vietnam Chamber of Commerce and Industry**, and the **Vietnam Women Entrepreneurs Council**. The Bank is also actively engaged in global initiatives supporting women-led SMEs, such as those by the **United Nations ESCAP**, **Facebook's SheMeansBusiness**, **ITC's SheTrades**, and **USAID's LinkSME** project.

BIDV is proud to be the **first commercial bank in Vietnam** to sign a framework lending agreement with the **SME Development Fund** under the Ministry of Planning and Investment and has been recognized as the most effective implementer of the Fund's financial support programs. Both parties have jointly developed a wide range of credit packages and banking products tailored to SMEs.

In recent years, BIDV has continuously sought preferential funding sources from reputable international financial institutions such as **IFC**, **World Bank (WB)**, **Asian Development Bank (ADB)**, and **Agence Française de Développement (AFD)** to strengthen the financial capacity of SMEs and support their sustainable development.

On **July 4, 2024**, in Singapore, **Asian Banking and Finance (ABF)** magazine honored BIDV with the "**SME Bank of the Year – Vietnam**" award. This marks the **seventh consecutive year** BIDV has received this prestigious recognition, affirming its outstanding achievements and unwavering commitment to fostering the growth and success of the SME community in Vietnam.

S3

Fair transactions and exceptional customer experiences

Ensure customer rights

• Customer Information Security

BIDV has implemented a comprehensive range of measures to ensure information security, with particular emphasis on the protection of customer data. The Bank has developed and enforced policies and regulations on information security for IT systems supporting banking operations, in compliance with applicable legal and regulatory frameworks, including the Law on Cyberinformation Security, the Law on Cybersecurity, Decree No. 85, Decree No. 117/2018/ND-CP of the Government, Circular No. 09 of the State Bank of Vietnam (SBV), and the Law on Credit Institutions enacted by the National Assembly.

BIDV has also issued internal regulations on the safety and confidentiality of information systems, including classification of information (such as personal data) and corresponding security levels for IT systems. These serve as the foundation for implementing information security controls appropriate to each classification level.

In compliance with Circulars No. 09 and No. 50 issued by the SBV, BIDV has adopted the following key information security measures for systems handling customer data:

- **Deployment of multi-layered security solutions**, including firewalls (Firewall, Web Application Firewall - WAF), anti-DDoS protection, secure virtual private networks (SSL VPN), endpoint security solutions, Endpoint Detection and Response (EDR), and cybersecurity monitoring systems (SIEM/SOAR) to manage, analyze, and respond to incidents across customer-related systems, servers, and workstations.
- **Implementation of encryption and masking techniques** to ensure the confidentiality of customer transaction authentication data, including secret keys, PINs, and biometric information.
- **Access rights management**, whereby access to customer data is granted based on roles and responsibilities, and access activities are subject to monitoring and audit controls.
- **Controls over physical and logical access** to devices and media used to store customer data, in order to prevent data breaches and unauthorized disclosures.
- In alignment with the legal requirements under **Decree No. 13/2023/ND-CP** on Personal Data Protection, BIDV has taken specific actions to ensure compliance, including:
 - Appointing a **dedicated department and personnel responsible** for personal data protection.
 - Issuing internal **regulations on personal data protection**.
 - Publicly disclosing **general terms and conditions** related to the processing and protection of personal data.

- Obtain data subject consent and enforce data subject rights.
- Amend and supplement internal regulations, forms, agreements, and related documents concerning personal data protection.
- Conduct personal data processing impact assessments and submit required reports.
- Provide guidance on the implementation of technical measures to safeguard customers' sensitive data.
- Deploy encryption and data masking solutions to protect sensitive data within BIDV's data warehouse systems.

BIDV is fully committed to ensuring the absolute confidentiality of customer information, strictly complying with legal regulations, and using data solely for purposes explicitly consented to by customers.

In 2024, BIDV launched a comprehensive initiative to obtain customer consent in accordance with Decree No. 13/2023/ND-CP across multiple channels, including Mobile Banking, branch counters, and the Contact Center—reaching nearly 10 million individual customers. At the Contact Center, BIDV implemented a stringent identity verification process utilizing a set of security questions and automatic authentication via SmartBanking to enhance data security. Access rights to customer information are rigorously controlled, and all data is encrypted during storage and transmission. BIDV personnel undergo regular training on data security protocols, and strict disciplinary measures are enforced in the event of non-compliance—ensuring maximum protection of customer data and safeguarding customer rights.

S3

Fair transactions and exceptional customer experiences

Ensure customer rights (continued)

• Resolve customer complaints

Pursuant to Official Dispatch No. 567/BIDV-KTGSTT dated June 14, 2019 of the Chairman of the Board of Directors on handling complaints and denunciations in the BIDV system, currently the channels for receiving customer complaints include: receiving directly at BIDV headquarters; via the Customer Care Center in the form of documents, telephone, email, website...

BIDV has issued specific instructions on handling customer complaints including: handling authority; assigning focal points of responsibility, receiving and coordinating handling to each individual and department; order, procedures, and time limit for handling complaints...

In 2024, BIDV will ensure compliance with complaint settlement procedures and regulations, with the supervision and coordination of the Head Office. In addition, BIDV has focused resources on promptly and satisfactorily handling arising petitions to contribute to continuously increasing customer satisfaction.

BIDV has issued Regulations on Handling Complaints and Denunciations in the BIDV system and receives complaints directly or through interactive channels at the Customer Service Center such as BIDV hotline, email, chat/social networks.

In 2024, BIDV listened and received through the customer service hotline to forward/coordinate with relevant units to handle 100% of customer feedback/complaints, demonstrating BIDV's efforts in customer support and care with the goal of improving customer satisfaction and experience.

• Warning about fraud through banking applications

The rise of sophisticated and high-tech fraud schemes has posed major challenges to customers' financial security. Fraudsters are increasingly using sophisticated and difficult-to-detect methods, from falsifying personal information, cyberattacks, to creating fake websites and applications to steal bank account information.

Faced with this situation, BIDV has proactively implemented many measures to protect customers from financial risks. One of the important measures is to promptly warn about suspected fraud cases and instruct customers on how to avoid them.

BIDV uses all available communication channels to convey warning information to customers quickly and effectively. On electronic banking applications such as BIDV Smart Banking, BIDV Online, the bank regularly sends notifications and warning messages about the latest frauds. Customers are advised not to provide personal information, OTP codes, passwords to anyone via phone, email or text message.

In addition, BIDV also utilizes social media such as Facebook, Zalo, and YouTube to post articles and videos with detailed instructions on how to identify and avoid frauds. These contents are presented in an easy-to-understand and vivid way, helping customers easily grasp and apply them in practice.

S4

Ensuring privacy, safeguarding data security, and promoting responsible data

Information System Security and Data Protection

Information system safety and security

In today's digital landscape, threats such as financial fraud, cyberattacks, and other malicious activities have become critical concerns for enterprises globally—particularly within the banking sector. The rapid advancement of technology has significantly heightened the risk of unauthorized access to sensitive personal information, including bank account details and passwords. Therefore, maintaining a secure information system is of paramount importance for financial institutions. Ensuring the confidentiality and integrity of customer data is a top priority and a foundational element that directly impacts a bank's reputation and operational sustainability.

- To establish a robust framework for information security management, BIDV has promulgated its Information Security Regulation, developed in compliance with Circular No. 09 issued by the State Bank of Vietnam on information system safety in banking operations. This regulation outlines comprehensive policies on information security that adhere strictly to legal requirements, including detailed guidance for employees on data handling and protection practices.
- **Employee Training and Awareness:** BIDV has developed dedicated training materials and an Information Security Handbook aimed at enhancing employees' awareness and competencies in this area. On an annual basis, the Bank conducts structured training programs to reinforce information security awareness among staff,

which are accompanied by system-wide knowledge assessments. In addition, BIDV implements monthly internal communication initiatives—such as newsletters, security tips distributed via email and the Gapowork platform—to continuously reinforce a culture of cybersecurity awareness across the organization.

- **Security Technologies:** BIDV has implemented a multi-layered security solution based on a comprehensive cybersecurity architecture, covering infrastructure, network, endpoint, access control, application, and data security. The focus is on early risk detection solutions to enable proactive prevention and ensure the safety of the information system. BIDV conducts regular reviews, upgrades, and replacements of outdated devices, operating systems, and software that are no longer supported by vendors. BIDV also applies multi-factor authentication and connects through jump servers when accessing critical systems.

At the same time, BIDV invests in modern security monitoring systems such as SIEM and SOAR, in combination with tools providing Threat Intelligence, Attack Surface Management, and alerts from the Ministry of Information and Communications and the State Bank of Vietnam, to enable early detection and timely response to cyber threats. The SOC unit (responsible for the operation of BIDV's Cybersecurity Operations Center) is enhanced with increased monitoring and continuously updated with new attack indicators to strengthen incident detection and response capabilities.

S4

Ensuring privacy, safeguarding data security, and promoting responsible data

Information System Security and Data Protection (continued)

- **Evaluation and Improvement:** BIDV regularly inspects and maintains its internal network and internet systems to ensure smooth and secure operations. The unit responsible for information security (Security Division – IT Center) monitors 100% of computers to ensure they are equipped with anti-malware software, and simultaneously reviews and updates the internal email directory, promptly revoking access rights for individuals who resign, are reassigned, or violate security regulations.
- BIDV also conducts periodic system reviews to detect and address security vulnerabilities in accordance with regulatory guidance. BIDV has developed data backup plans based on system classification levels and incident response scenarios for cyberattacks, particularly for systems at level 3 or higher.
- Electronic banking systems are deployed in full compliance with the requirements of the State Bank of Vietnam under Circular 09 and Circular 50, including biometric authentication for customers.

Modern Security Solutions at BIDV

Firewalls to protect applications and databases.

Solutions for preventing and mitigating Denial of Service (DoS) and Distributed Denial of Service (DDoS) attacks.

A cybersecurity monitoring system for managing and analyzing information security events (SIEM).

BIDV has developed response plans, procedures, and scenario-based solutions to address potential information security risks for various situations. At the same time, a disaster recovery system has been established, and regular drills are conducted to ensure business continuity for BIDV's information systems.

Regular security assessments, vulnerability scanning, and remediation of technical weaknesses in accordance with BIDV's current Information Security Regulation and Technical Vulnerability Management Policy, applied to each system level. For system components directly connected to the Internet, vulnerability scans and assessments are conducted at least once every three months.

Protection of Personal Data

- BIDV is committed to safeguarding information and protecting the privacy of organizations and individuals whose data is stored at BIDV, through proper data governance, storage, and access in accordance with legal regulations and international best practices. This commitment is aimed at ensuring the rights, peace of mind, and absolute trust of customers and stakeholders when using BIDV's products and services.
- In compliance with Government Decree No. 13/2023/NĐ-CP on personal data protection, BIDV has:
 - Issued Regulation No. 6357/QĐ-BIDV dated September 17, 2024, by the General Director on personal data protection;
 - Published the general terms and conditions for personal data processing and protection on BIDV's website (<https://bidv.com.vn/vn/an-toan-bao-mat>);
 - Issued a standard Personal Data Protection Agreement template under Official Letter No. 3649/BIDV-PC dated March 12, 2024;
 - Amended and updated standard contract templates with customers to incorporate provisions on personal data protection.
- In addition, BIDV continues to strengthen efforts to raise customer awareness about various forms of fraud and provides guidance to ensure the safety of customers' information and accounts. Hotlines are made available for customers to report any suspicious activity related to fraudulent transactions. Furthermore, BIDV enhances the application of technical security solutions, intensifies internal monitoring activities, and coordinates closely with regulatory authorities to promptly detect and strictly handle violations related to customer data and information.

TOPIC 2

Systemic risk management and integration

TOPIC 3

Reliability and Transparency

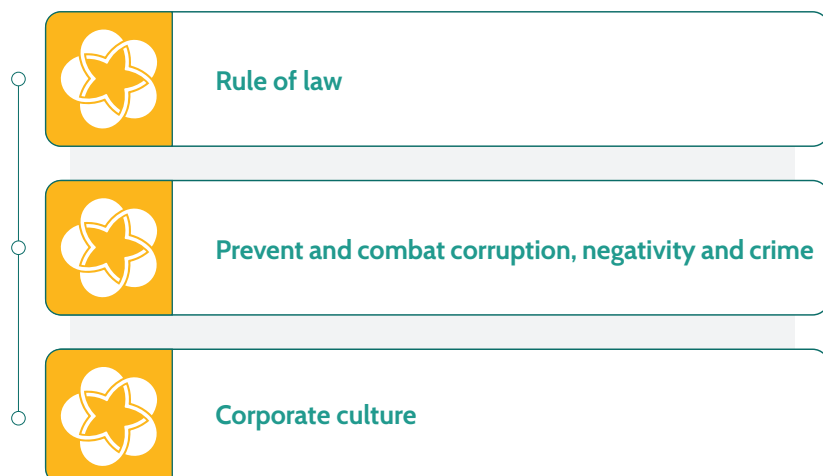

G1

Ethics: The foundation of our business

Approach

At BIDV, business ethics is a core value and the foundation for building long-term trust with stakeholders. We are committed to upholding the highest ethical standards by embedding principles of transparency, honesty, and accountability into all aspects of our business operations and governance. This ethical orientation is consistently applied across the entire organization, fostering a culture of integrity where every employee is aware of and practices professional ethics as an intrinsic responsibility. BIDV continuously enhances internal regulations, strengthens oversight mechanisms, and provides ongoing training to ensure ethical standards are upheld and improved, thereby reinforcing brand reputation and contributing to sustainable development.

Our initiatives

G1

Ethics: The foundation of our business

Rule of law

- The rule of law is a core principle and guiding compass in BIDV's management and operations. This is not only a responsibility but also a critical factor in ensuring the Bank's sustainable development. BIDV is firmly committed to full and strict compliance with prevailing laws and regulations, while also aligning with international risk governance standards to promote transparency, discipline, and efficiency across the entire system.
- In a context of significant legal reforms—particularly with the enactment of key new laws such as the Law on Credit Institutions 2024, the Land Law 2024, the Law on Real Estate Business 2023, the Housing Law 2023, and the Electronic Transactions Law 2023, alongside relevant decrees, circulars, and guidance from the Government, ministries, and the State Bank—BIDV has proactively conducted impact assessments and implemented integrated measures to update and embed new legal requirements into its operations.

Key initiatives include:

- Comprehensive review of internal regulations to ensure full alignment with newly issued laws and regulations.
- Amendment and issuance of BIDV's new Charter, effective from January 1, 2025, in compliance with the Law on Credit Institutions 2024 and related guidance.
- Implementation of the Law on Credit Institutions 2024: BIDV has promptly issued 46 internal documents (36 internal regulations and 10 official letters), addressing 18 out of 47 subordinate

legal documents that have a direct impact on credit institution operations. The remaining provisions are either directly applicable or not relevant to BIDV's activities.

- Execution of the Land Law 2024, Housing Law 2023, and Real Estate Business Law 2023: BIDV issued Official Notice No. 3953/TB-BIDV dated March 18, 2024, to provide internal implementation guidance. Concurrently, the Bank proactively conducted legal impact assessments, consolidated implementation challenges, and submitted recommendations to the State Bank of Vietnam and the Vietnam Banks Association.
- System-wide training programs, legal seminars, and workshops: Key topics—including legal updates on the Law on Credit Institutions, Land Law, Housing Law, and Real Estate Business Law—were integrated into internal training curriculums to enhance employee awareness and compliance capabilities.
- Strengthening legal communication and dissemination: BIDV issued 32 official letters and 72 internal legal bulletins to ensure timely updates and effective implementation across the system.

Through these proactive, comprehensive, and serious efforts, BIDV has not only reinforced its internal governance framework but also demonstrated leadership in adapting to the evolving legal landscape. These actions contribute to secure, transparent, and sustainable banking operations—aligned with international governance standards.

Prevent and combat corruption, negativity and crime

- BIDV issued important regulations to improve the effectiveness of anti-corruption, negativity and crime prevention and control, including:
 - Regulations on organization and operation of BIDV Steering Committee for Anti-Corruption, Anti-Corruption and Anti-Corruption to ensure effective and synchronous operation throughout the system.
 - Decision to strengthen the Steering Committee's personnel, ensure continuity and enhance management capacity of preventing and combatting corruption, negativity and crime work.
 - Action programs to implement plans and directions of the Government, the Party Committee of State-owned Enterprises, and the State Bank on preventing and combatting corruption, negativity and crime work.
- In 2024, BIDV will proactively, promptly and comprehensively carry out propaganda and dissemination of policies and laws on preventing and combatting corruption, negativity and crime, with diverse and rich forms, contributing to raising awareness, political ideology and responsibility for action of cadres, party members and employees in the whole system.
- BIDV Steering Committee and Sub-Committees for Preventing and combatting corruption, negativity and crime hold regular meetings at least twice a year to review and evaluate implementation results, thereby proposing solutions and further directions, ensuring that preventing and combatting corruption, negativity and crime work is implemented effectively, substantially and synchronously.

Corporate culture

BIDV Culture Handbook – Foundation for sustainable development

BIDV Cultural Handbook is applied to all employees who have signed labor contracts with BIDV in all positions, from senior leaders to specialists. The handbook provides complete guidance on cultural principles and professional ethics, contributing to raising awareness, building professional behavior, standard working style, and at the same time being the basis for each BIDV officer to cultivate and practice ethics and professional culture.

G1

Ethics: The foundation of our business

Corporate culture (continued)

Communicating and Disseminating Corporate Culture Across the Entire BIDV System

- Design and publish BIDV Cultural Handbook in print and electronic form, presented in bilingual (Vietnamese, English) and posted on BIDV website for stakeholders to access and study 24/7.
- Design a poster set about BIDV Cultural Handbook to post on the internal website, electronic bulletin board in the elevator, etc.
- Building a media clip on the five core values of BIDV Cultural Handbook
- Create and release the song "Together We Shine" to continue spreading corporate cultural values in a lively form.
- Actively communicate internally on the internal social network Gapowork - BIDV Zone: (i) post a series of funny sitcom Transaction Office, comic books incorporating the content of BIDV Cultural Handbook, (ii) organize contests to learn about BIDV Cultural Handbook
- Organize annual corporate culture training for new staff; 9 training courses for more than 1,500 union staff of 248 grassroots unions throughout the system; 2 e-learning training courses for nearly 1,600 students.
- 100% of leaders and staff in the entire system signed a commitment to comply with the BIDV Cultural Handbook.
- Incorporate corporate culture content into training programs for subjects such as new staff, officers, managers, future bank leaders, etc.
- Continue to promote corporate culture communication on multiple channels, especially digital channels to enhance propaganda and education about BIDV's development history and cultural identity such as (i) Building a 3D virtual tradition room, (ii) Publishing BIDV Online Chronicle, (iii) Posting stories about BIDV's history and people on digital media channels such as BIDV website, Fanpage, Youtube, internal social networks; Organizing a survey program on corporate culture development at strategic partner Hana Bank (Korea),...
- Organizing the "I am BIDV" writing contest.
- Organize the "BIDV Cultural Ambassador 2024" contest on a system-wide scale for 6 months. The contest attracted more than 22,000 staff to participate in the online round and received special attention from leaders of units. The contest is not only a meaningful playground but also a strong catalyst in arousing pride in BIDV's cultural values that have been inherited and promoted

through many generations. At the same time, the contest has contributed to deeply permeating BIDV's corporate cultural values into the thoughts and actions of each staff. The "BIDV Cultural Ambassador" team is expected to continue to spread, foster and enhance BIDV's cultural values to a large number of staff throughout the system, contributing to building BIDV into a strong organization not only in terms of expertise but also in terms of solidarity and cultural identity.

Monitoring and Reporting Compliance with BIDV's Culture Handbook

BIDV has officially integrated the evaluation of violations of corporate culture regulations into the staff assessment framework.

Compliance with Core Values, Code of Ethics, and Conduct Standards among all managers and staff is regularly monitored and reported to the Board of Management. Violations of the Culture Handbook will be subject to disciplinary actions, ensuring deterrence and avoiding recurrence.

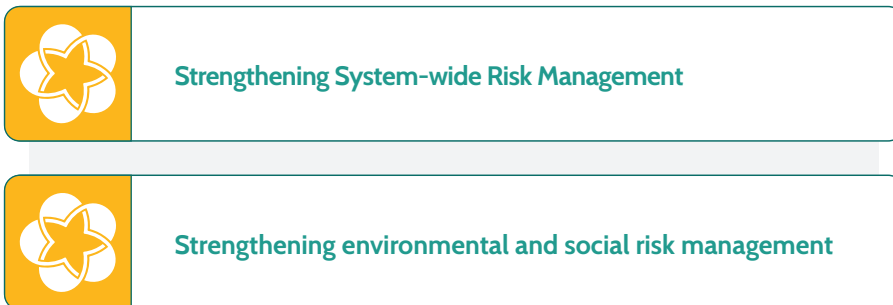

G2

Systemic risk management and integration

Approach

BIDV always attaches importance to the management and integration of systemic risks in all business activities. We recognize that effective risk management and data security are key factors to ensure the stability and sustainable development of the bank. Therefore, BIDV has been implementing many strategies and measures to manage systemic risks.

Our initiatives

G2

Systemic risk management and integration

Strengthening System-wide Risk Management

Risk Management Policy

- BIDV's Board of Management has issued comprehensive risk management (RM) policies and procedures, which include the Bank's Risk Appetite Statement, organizational requirements, implementation guidelines, reporting procedures, and inspection and supervision mechanisms. All risk management activities are reported periodically and ad hoc to the Board of Management for timely and appropriate response measures.

Risk Management Framework at BIDV

Risk Management Principles at BIDV

①

BIDV strictly complies with applicable laws and regulations in all its operations and only accepts risks within its financial capacity and strategic business orientation.

②

The Bank limits activities that may have adverse environmental and social impacts in its operations and banking business areas.

Risk Management Policy:

- BIDV adopts a Three Lines of Defense model in managing risk, covering risk identification, control, measurement, monitoring, supervision, and both regular and ad hoc reporting, supported by modern systems and models. The Bank maintains a clear governance structure involving the Board of Directors and related departments to supervise and adjust risk strategy and limits in line with market conditions and legal regulations. Risk mitigation measures are comprehensively implemented—from individual customer level to the overall credit portfolio—ensuring alignment with the Bank's risk appetite and international best practices.

Key Risk Types at BIDV

 Credit Risk	 Counterparty Credit Risk	 Operational Risk	 Market Risk
 Interest Rate Risk in the Banking Book (IRRBB)	 Liquidity Risk	 Reputational Risk	 Strategic Risk
 Information Technology (IT) Risk		 Concentration Risk in Proprietary Trading

Systemic risk management and integration

Strengthening System-wide Risk Management (continued)

Risk Control Culture – A Foundation for Sustainable Development at BIDV

- **Establishing a Mindset and Code of Conduct:** With the goal of shaping a workforce that embodies comprehensive thinking, ethics, lifestyle, and cultural character—aligned with the demands of modernization and international integration—BIDV has taken the lead in issuing Resolution No. 534/NQ-BIDV on Risk Control Culture (RCC). This resolution serves as a guiding compass, helping BIDV employees think thoroughly, anticipate risks, act prudently, and take responsibility for their decisions—both individually and institutionally.
- **Structured and Practical Implementation Roadmap:** BIDV has developed and rolled out a synchronized set of documents and action plans to shape and propagate RCC throughout the organization, including:
 - **Strengthening Communication and Awareness-Building:** BIDV promotes RCC through diverse forms of internal engagement and awareness campaigns, including:
 - Launching RCC-themed emulation and reward programs.
 - Organizing the RCC Competition, providing a practical, interactive platform.
 - Issuing regular RCC bulletins to sustain learning momentum.
 - Creating dedicated RCC knowledge corners on internal communication platforms.
 - Hosting quizzes and contests to encourage learning and practical application of RCC principles.

A practical guideline for Risk Control Culture implementation applicable across the entire system.

A Roadmap and Implementation Plan for Resolution No. 534 on RCC, for the 2023–2025 period, with a vision toward 2030.

Two versions of the RCC Casebook by Job Function, compiling 400 real-life scenarios, enabling managers and staff to proactively identify, prevent, and handle risk-related situations in daily operations.

- **Continuous Training to Elevate Awareness:** BIDV ensures that all staff members thoroughly understand the 08 Core Values and 05 Key RCC Practice Principles by:
 - Integrating RCC content into key training programs such as: Transaction Office Leadership, New Employee Onboarding, Future Bank Leadership, Management Trainee Programs, and RCC e-learning modules.
 - Embedding RCC topics into dialogues, workshops, and professional training for managers and employees at all levels.

Integrating RCC content into key training programs such as: Transaction Office Leadership, New Employee Onboarding, Future Bank Leadership, Management Trainee Programs, and RCC e-learning modules.

Embedding RCC topics into dialogues, workshops, and professional training for managers and employees at all levels.

Launching RCC-themed emulation and reward programs.

Organizing the RCC Competition, providing a practical, interactive platform.

Issuing regular RCC bulletins to sustain learning momentum.

Creating dedicated RCC knowledge corners on internal communication platforms.

Hosting quizzes and contests to encourage learning and practical application of RCC principles.

- **Monitoring Implementation Effectiveness:** BIDV conducts annual surveys to assess the level of understanding, internalization, and practice of RCC at both individual and organizational levels. The Bank also implements RCC performance scoring, compiling results across the system and reporting them to ensure substantive, synchronized, and continuously improving implementation.

G2

Systemic risk management and integration

Strengthening environmental and social risk management

Environmental Risk Management in Credit granting Activities

In alignment with BIDV's focus on managing environmental and social risks in the credit granting process, 100% of projects with potential environmental impacts, as regulated by the State Bank of Vietnam (SBV), must undergo environmental risk assessment and management.

During credit appraisal, BIDV requires borrowers to comply with environmental standards in accordance with applicable laws. The Bank may decline financing for loan purposes included in the exclusion list—such as projects with illegal objectives or those posing significant environmental or social harm.

Concurrently, based on a thorough review of relevant legal documents and consultation with regulatory bodies (including the SBV), the BIDV General Director signed and promulgated the Regulation on Environmental Risk Management in Credit Activities (currently Regulation No. 3266/QĐ-BIDV, including subsequent amendments and supplements). According to Regulation No. 3266/QĐ-BIDV, the environmental risk management process for credit projects involves the following steps:

Project Categorization

Environmental Risk Assessment (through document review and/or site visits)

Post-disbursement Monitoring and Supervision

The Regulation No. 3266/QĐ-BIDV has been widely communicated, disseminated, and enforced across BIDV's system and branch network:

- All staff have received internal training and communication regarding the content of Regulation 3266 and are required to sign a commitment to comply.
- The results of training, communication, and compliance monitoring are reported to the Head Office and serve as a basis for evaluating employee awareness and understanding of environmental risk management in credit operations.

Environmental and Social Risk Management Framework in Trade Finance Activities (ESMS Framework)

In April 2024, BIDV issued the Environmental and Social Risk Management Framework (ESMS) for trade finance activities. The objective of the ESMS in trade finance is to identify environmental and social risks related to goods and parties involved in trade finance transactions, in order to reduce the likelihood of adverse E&S impacts and increase opportunities to deliver environmental and social benefits, thereby contributing to sustainable development. Clients implementing the ESMS framework are eligible for several incentives from BIDV, including: preferential trade finance service fees, preferential interest rates on L/C disbursement loans, discounting of export bills of exchange with full shipping documents, and early payment of export L/C documents.

BIDV places particular emphasis on the strict evaluation and appraisal of projects that use foreign concessional funds for green credit and climate change adaptation/mitigation. The Bank assesses the positive environmental and social impacts of these

projects before, during, and after disbursement. At the same time, BIDV ensures that projects using foreign concessional funds in green finance comply with international environmental and social standards and relevant legal regulations of Vietnam before financing decisions are made.

G3

Reliability and transparency

Approach

At BIDV, "Reliability and Transparency" is not merely a strategic orientation but also a fundamental foundation of all operations - particularly in information disclosure. The Bank firmly believes that providing full, accurate, timely, and fair information to all stakeholders - including shareholders, investors, customers, regulators, and the community - is key to building and maintaining trust, ensuring stability, and fostering sustainable growth.

BIDV's approach to transparency is grounded in the principles of rule of law and accountability. The Bank is committed to strictly and comprehensively fulfilling its disclosure obligations in accordance with legal regulations applicable to large listed companies. However, BIDV goes beyond mere legal compliance by actively aligning with international best practices and standards in corporate governance and disclosure. This reflects a strong sense of ethical responsibility, respect for the right to information of stakeholders, and a commitment to contributing to a sound and efficient Vietnamese financial market.

BIDV maintains a consistent orientation to ensure that the flow of information is uninterrupted, multidimensional, and easily accessible. The Bank is committed to ensuring transparency across all aspects of its operations - including financial performance, business results, governance structure, development strategies, risk management, and sustainability and social responsibility (ESG). This comprehensive transparency allows stakeholders to make objective assessments and informed decisions. BIDV firmly believes that transparency not only reinforces the Bank's reputation and market position but is also a critical factor for long-term, safe, and sustainable development. Accordingly, the Bank continually reviews and improves its disclosure processes, systems, and communication channels, while strengthening the supervisory role of governance bodies to ensure the consistent and effective delivery of its commitment to Reliability and Transparency.

Our initiatives

Effective Corporate Governance

Transparent and comprehensive information disclosure

Increase the frequency of investor contact, improve the quality of information provided to the market

G3

Reliability and transparency

Effective corporate governance

BIDV is committed to implementing corporate governance in full compliance with legal regulations applicable to large-scale public companies, and in alignment with recognized best practices in corporate governance.

• Regulations and Guidelines Issued by the State:

- 1 Law on Enterprises
- 2 Law on Credit Institutions
- 3 Law on Securities
- 4 Circular No. 116/2020/TT-BTC providing guidance on certain provisions regarding corporate governance applicable to public companies
- 5 Circular No. 96/2020/TT-BTC providing guidance on information disclosure on the securities market

• Corporate Governance Best Practices:

- 1 OECD Principles of Corporate Governance
- 2 ASEAN Corporate Governance Scorecard, Version 3.0
- 3 The Vietnam Sustainability Index (VNSI)
- 4 The Corporate Governance Principles for Listed Companies in Vietnam based on international best practices

Corporate Governance Principles at BIDV

- Upholding the rule of law and adhering to sound corporate governance practices in line with international best standards.
- Operating an effective governance framework, including the efficient functioning of the Board of Directors, Supervisory Board, and Executive Management.
- Aligning the interests of shareholders, investors, and relevant stakeholders with the Bank's business strategies and operations.
- Enhancing transparency and disclosure in all banking activities. The Charter on the Operation of the Board of Directors and BIDV's Internal Corporate Governance Regulations are developed in accordance with prevailing legal requirements on corporate governance, in line with BIDV's Charter, and are duly approved by the General Meeting of Shareholders. BIDV has appointed a Corporate Governance Officer with full responsibilities and duties as stipulated by applicable regulations.

Transparent and Accountable Governance

- Policy on Related Party Transactions: In 2023, BIDV issued a Policy on Transactions with Related Parties, which ensures that such transactions are conducted on reasonable terms, follow market mechanisms, and are designed to prevent conflicts of interest in accordance with legal regulations.
- Corporate Governance Monitoring and Evaluation Process:
 - The oversight and evaluation of corporate governance practices are implemented in accordance with the Operational Charter of the Board of Directors and BIDV's Internal Corporate Governance Regulations, ensuring compliance with prevailing laws and alignment with BIDV's Charter as approved by the General Meeting of Shareholders.

- With the aim of aligning its corporate governance practices with regional and international best practices, BIDV has undertaken the adoption of: (i) the OECD Principles of Corporate Governance, (ii) the ASEAN Corporate Governance Scorecard, and (iii) the Corporate Governance Principles for Listed Companies in Vietnam jointly developed by the State Securities Commission (SSC) and the International Finance Corporation (IFC). Accordingly, the Corporate Governance Officer at BIDV submitted a proposal to the Board of Directors for approval of the procedures and criteria for corporate governance monitoring and evaluation.
- On a semi-annual basis, as of June 30 and December 31 each year, the Board Secretariat and Shareholder Relations Department, under the Board of Directors, coordinates with relevant departments to assess BIDV's corporate governance in accordance with the ASEAN Corporate Governance Scorecard criteria. The Corporate Governance Officer is responsible for overseeing and approving the content of the report, which is then submitted to the Executive Management for review and approval. For any areas of governance that do not yet meet best practice requirements, the responsible unit will propose improvement measures, assign implementation responsibilities to relevant departments, and report the progress to Executive Management in the subsequent reporting cycle.

Reliability and transparency

Effective corporate governance (continued)

Avoiding Conflicts of Interest

BIDV is committed to applying best corporate governance practices to prevent conflicts of interest, ensure fair treatment among shareholders, enhance objectivity and transparency, and improve the operational quality and efficiency of the Board of Directors (BOD). The Bank places special emphasis on protecting the legitimate rights and interests of the organization and its shareholders.

Members of the BOD actively participate in discussions, voting, and provide independent opinions on matters within the BOD's authority. This approach helps to prevent conflicts of interest, ensures fairness among shareholders, and reinforces objectivity and transparency in the Board's activities. Every decision made

by the BOD is carefully considered, based on best governance principles and in compliance with current legal regulations, to safeguard the rights and interests of BIDV and its shareholders.

In 2023, BIDV issued a Related Party Transaction Policy, reinforcing its commitment to transparency and fairness in all transactions. This policy ensures that all related-party transactions follow market principles, are reasonable in terms of benefits, and do not negatively affect the rights and interests of BIDV and its shareholders.

Reliability and transparency

Effective corporate governance (continued)

Board Appointment Process

BIDV applies the highest standards and regulations in its process for appointing members of the Board of Directors, ensuring transparency, fairness, and effectiveness in corporate governance. Information on proposed BOD candidates (upon approval by the State Bank of Vietnam) is disclosed on BIDV's website in accordance with regulations. This enables shareholders to thoroughly assess the candidates before voting, ensuring openness and transparency in the appointment process.

Candidates for the BOD must meet strict criteria, including professional ethics as required by the Governor of the State Bank of Vietnam, a university degree or higher, and at least one of the following conditions: Minimum three years serving as a manager or executive of a credit institution; Minimum five years as a manager in a financial, accounting, or auditing enterprise or any other enterprise

with charter capital equal to or higher than the legal capital required for the relevant type of credit institution; Minimum five years of direct experience in professional departments of a credit institution or foreign bank branch; Minimum five years of direct experience in financial, banking, accounting, or auditing departments.

This appointment process ensures that selected candidates possess the necessary capacity, experience, and professional ethics to effectively fulfill their roles and responsibilities. With a fair and transparent selection mechanism, BIDV is confident in building a qualified and dedicated leadership team that contributes to the Bank's sustainable development.

Remuneration Policy

BIDV places great importance on developing remuneration policies for the Board of Directors, Board of Management, and the Supervisory Board based on the principles of fairness, transparency, and effectiveness. The policy is developed in compliance with applicable legal regulations, BIDV's internal rules, with approval from the State Bank of Vietnam, and is endorsed by the General Meeting of Shareholders.

Remuneration and salary levels are determined based on position, title, and individual performance within the approved budget. This policy not only serves as a performance incentive but also reflects BIDV's commitment to strengthening corporate governance, ensuring sustainable development, and building trust with shareholders.

G3

Reliability and transparency

Transparent and comprehensive information disclosure

Transparent governance and responsibility

BIDV, as a large-scale public company and an enterprise listing stocks and bonds, always prioritizes transparency, accuracy and timeliness in information disclosure. BIDV is committed to providing complete information on all disclosure platforms of State management agencies, with content presented in both Vietnamese and English, to best serve the information needs of shareholders and investors.

In 2024, BIDV has promptly and fully disclosed thirty-one periodic contents and 132 extraordinary contents. This information includes many important types of reports, such as Financial Reports, 2023 Annual Reports, Sustainability Reports, Corporate Governance Reports, invitations to the General Meeting of Shareholders (GMS), information on soliciting shareholders' opinions in writing, information on retirement to enjoy social insurance benefits of insiders, information on transactions with related parties, bond issuance, etc.

To improve the quality and diversify the channels of information provision to shareholders, BIDV has established four main channels. First, information is provided directly at the General Meeting of Shareholders. Second, information is exchanged during meetings with investors and analysts. Third, information disclosure channels on BIDV's website, the information disclosure system of the State Securities Commission and the Stock Exchange, the business information portal of the Ministry of Planning and Investment, where users can easily access from mobile devices with many new features. Finally, we also issue publications such as the periodic BIDV Introduction Document for investors and the quarterly Shareholder Newsletter exclusively for shareholders with updated content on BIDV's operations, business results, and important events, and other mass media.

The extraordinary annual General Meeting of Shareholders (January 2024) and the 2024 annual General Meeting of Shareholders (April 2024) were organized by BIDV in a thoughtful and solemn manner, in full compliance with current regulations to facilitate shareholders to promptly access information on the Bank's business performance. At the General Meeting of Shareholders, based on the Reports and Proposals presented, shareholders voted on important issues related to BIDV's operations, and were able to directly question and make recommendations to the Bank's Board of Directors. In addition, in order to improve convenience, encourage participation and ensure shareholders' voting rights and the right to

be treated fairly, BIDV has implemented a form of remote voting to help shareholders who do not attend the General Meeting exercise their voting rights quickly, safely and securely. After the Congress, the documents unanimously approved at the Congress were fully completed and posted on the Investor Relations page on BIDV's website, ensuring that all shareholders, including those who did not attend, grasped the important contents of the Congress.

To ensure the rights of shareholders, especially with the characteristics of a large and diverse number of shareholders, BIDV pays great attention to shareholder management. In 2024, the Investor Relations Department actively responded to questions and requests from shareholders and investors, especially individual shareholders and investors, through interactive channels such as phone, email, and chatbot on the website. Adjusting information, issuing lost Share Ownership Certificates and other rights of shareholders were carried out quickly, in accordance with regulations, meeting the requirements and expectations of shareholders.

G3

Reliability and transparency

Transparent and comprehensive information disclosure (continued)

Increase the frequency of investor contact, improve the quality of information provided to the market

In 2024, through increasing the frequency of contact and exchange both directly and indirectly, BIDV continues to build and maintain effective relationships with a large number of professional institutional investors at home and abroad. With their scale of operation and extensive experience, investors have provided useful feedback, recommendations and suggestions of practical value to BIDV's operations.

Investor contact activities have been expanded in scale and improved in quality. In 2024, BIDV contacted a total of 127 domestic and international investors with various types of funds such as: National Investment Fund, Strategic Fund, Private Investment Fund, Global Long Position Investment Fund, Multi-Strategy Fund and Private Banks,... from many countries and regions (Singapore, Hong Kong, China, UK, Thailand, Taiwan,...). Many investors and partners who contacted and worked with highly appreciated BIDV's business results and the positive performance of BID shares in the context of many economic difficulties and strong fluctuations in the Vietnamese stock market. BIDV had many in-depth discussions on macroeconomic issues, monetary policy, and BIDV's business strategy, which was highly appreciated by investors and partners for BIDV's professionalism and information transparency. Thereby, helping analysts grasp the bank's business prospects for analysis, evaluation and investment recommendations. Analysts' evaluation

reports on BIDV have improved significantly in 2024. Accordingly, major securities companies have issued Buy/Increase/Positive recommendations for BID shares.

In addition, BIDV also actively participates in domestic and foreign investment seminars and conferences such as the SSI-Citi C-suite 2024 seminar, HSC's Emerging Vietnam seminar and Vietcap 2024 seminar to introduce and present about BIDV. In addition to the quarterly updated BIDV introduction document for investors, BIDV has released the BIDV Newsletter for shareholders. In particular, since 2024, BIDV has deployed the Earning calls newsletter as well as quarterly investor meetings providing detailed information on business performance, factors affecting profits and BIDV's development strategy. This is an important tool to help investors have a timely overview of the Bank's financial situation and business prospects.

BIDV also developed, completed and issued the Handbook of Professional Ethics in Investor Relations at BIDV and a set of practical scenarios guiding the implementation of the Handbook of Professional Ethics in Investor Relations to apply good practices. The Handbook of Professional Ethics after being issued has become a "guiding compass" for employees performing investor relations at BIDV.
